

# BOYS' HIGH SCHOOL BUILDING GUTTED BY FLAMES IN NEAR ZERO WEATHER; 535 STUDENTS AFFECTED

## Deaths and Fires Come in Wake of Cold Wave

### ATLANTA PASSES COLDEST JANUARY DAY SINCE 1886

Temperature Drops to  
Four-Tenths of a Degree  
Above Zero Mark at 7  
O'Clock Sunday.

### WOMAN DIES OF BURNS AND ANOTHER FREEZES

Deaths From Fires and  
Cold Reported in Macon,  
Philadelphia, Pittsburgh  
and Other Cities.

When Atlantans rubbed their sleepy eyes Sunday morning at 7 o'clock and got up to throw an extra blanket or two across their beds, the thermometer in the government weather bureau registered just four-tenths of a degree above zero—the lowest record since the year 1890, when the mercury dropped to 8 1/2 degrees below.

Twenty-five years ago on February 13, the thermometer read 8 1/2 below; in January in 1886 the mercury dropped 4 degrees under the zero mark; in other words this is the coldest January weather since 1883 and the lowest temperature record for the year since 1890.

There is hail in Gilead for Atlantans, however, in the following forecast from the weather bureau in Washington, for today, which reads: "Georgia: Fair weather and rising temperature Monday and Tuesday; gentle variable winds."

### DEATH AND FIRE TOLL SWEEP ENTIRE COUNTRY.

The day was marked in Atlanta and other cities of the south, and in practically all sections of the country, by deaths of victims of fire and cold, and by high winds, which have served to increase damages by fire.

The list of dead includes: Atlanta, 2; Macon, 3; Pittsburgh, 4; Philadelphia, 3; Rushville, Ill., 4; and a boat bound from Mobile to New Orleans, 3. Serious fires were reported in Atlanta, Ocean Park, Cal., St. Louis, and in many other cities. Four other persons are badly burned in Atlanta. One may die.

### ATLANTA WOMAN FOUND DEAD IN HER BED.

Found dead in her bed, Miss Florence Hollis, 60 years old, of 100 Fowler street, is believed by police to have frozen to death. The discovery was made by a neighbor, Mrs. W. W. Jackson, early Sunday night.

Miss Hollis lived in the house alone, police stated, and plenty of fuel was stacked in the room. They advanced the theory, however, that she had fallen asleep while the fire was burning and, failing to awaken, was killed by the cold after the fire had died out in the grate.

According to physicians, the woman had been dead for several hours. The body was placed in charge of Harry G. Poole.

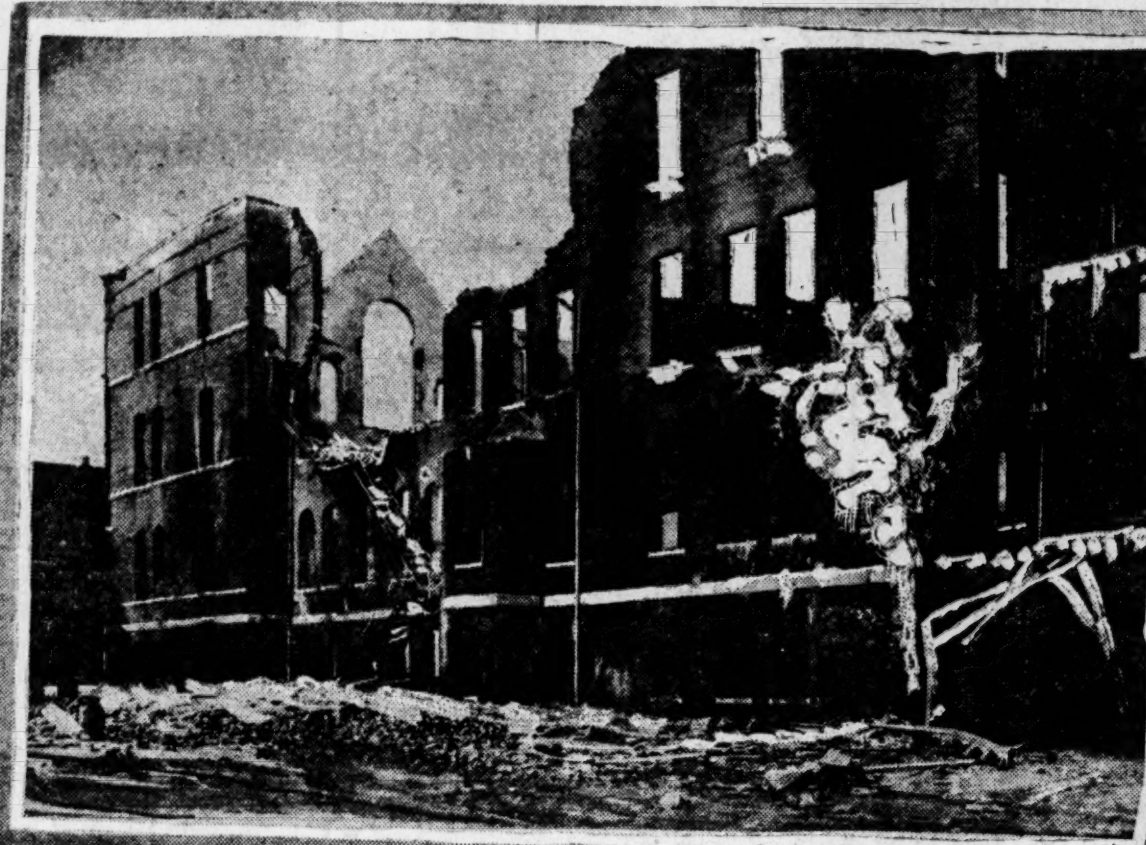

Mrs. Jackson, whose pipes had frozen Sunday morning, came to Miss Hollis' home to get some water. Knocking on the door and failing to gain response, she entered the house where she found Miss Hollis dead.

### WOMAN DIES OF BURNS. RECEIVED ON SATURDAY.

Mrs. Ollie Ferguson, 55, of 60 Beatie street, died Sunday afternoon.

### Ice and Intense Cold Hamper Firemen at High School Blaze

On the left are shown the walls of the gutted Boys' High school, and on the right a view of the firemen playing hose on the burning structure. The severity of the cold and the rapidity with which icy coats formed on buildings and trees are indicated by the white spots on the building, where the water thrown by the fire fighters had frozen. On the left the white spot, that reminds you of the coming of Santa Claus, is in reality an icicle-covered tree.

### AUDITORIUM SAVED AFTER HARD FIGHT BY CITY FIREMEN

Two Houses on Courtland Street Destroyed, While Water Freezes on Trees Near Blaze.

### NO DECISION REACHED ON HOUSING STUDENTS

Board of Education Will Determine Plans at Meeting Today—County Board Meeting Called.

**HIGH SCHOOL STUDENTS WILL MEET AT NOON**  
H. O. Smith, principal of Boys' High school, announced through The Constitution Sunday night that all pupils should assemble at 12 o'clock (noon) today at the auditorium of the Commercial High school, when plans for their future accommodation will be announced.  
Decision as to where the boys will go to school will be made at a conference of school officials this morning, and it is believed double-session plan at some public school or private building, specially provided, will be the result.

Fire of undetermined origin early Sunday morning wrought havoc with one Atlanta public school building, thrilled 535 boyish hearts with an unholy joy, and for a time threatened to deprive Georgia music-lovers of the pleasure of the grand opera season.  
Boys' High school, at Courtland and Glimmer streets, was completely gutted by an early morning blaze which started in the basement and quickly spread until the entire interior of the building was a mass of leaping flame, thus further increasing the congested condition of the Atlanta school system. The loss was estimated by city officials at between \$50,000 and \$75,000.

Sparks from the leaping fire in the school building, borne by a strong wind, crossed Glimmer street and started several blazes on top of the Auditorium building. Only heroic work of firemen in the bitter cold saved the site for Atlanta's coming season of Grand Opera from the fate of the school building.

**Small Houses Destroyed.**  
Two small houses on Courtland street immediately adjoining the school structure were destroyed by fire spread to them by flying sparks.

Atlanta firemen fought the blaze in weather so cold that flying drops of water from half a dozen hoses, crystallized and froze on the foliage of three trees not ten feet distant from the Courtland street facade of the school. Heat from the fire was unequal to melting this last-forming ice and within ten minutes after the first hose line began to pour its stream into the blazing structure the little trees were fairy tracings of gleaming ice against a flaring red and flaming background.

Only a little knot of fire-morbid men turned out from warm pajamas to watch the fire. Perhaps 60 persons, whose sole business at the fire was that of onlooker, attended the obsequies of the school. These were easily held in check by a squad of policemen who stood and shivered, unafflicted to the very nose tip, just across the street from the roaring flames.

The exact cause of the blaze, which was discovered in the basement of the school building about 4:10 o'clock Sunday morning, had not been determined.

### BALDWIN REGIME SLATED TO FALL ON JANUARY 15

Guy Fawkes of Present  
Parliament Will Be Sitting  
on Benches as Members  
of Body.

BY CHARLES M. McCANN.  
London, January 6.—The reassembling of the British parliament Tuesday marks the beginning of the end of Stanley Baldwin's premiership.

Formal obsequies of the Baldwin regime will take place on January 15 when the king opens parliament in state.

As part of that colorful ritual, red clad "beef eaters," guards of London tower, will carry out the traditional ceremony of prying through cellars under parliament buildings, hunting for imitators of one Guy Fawkes, who tried to blow up "my lords and gentlemen" with an historic keg of gun-powder.

But on the 15th the dynamite that is to blow up the Baldwin government will be sitting on benches in the house of commons. When the government presents its address to the king, labor will introduce a formal amendment, "regretting" some Baldwin policy.

Labor and the liberals will both vote in favor of the amendment, and the government will be defeated.

Baldwin, no longer able to command a majority in parliament, will resign. King George will summon Ramsay MacDonald, as leader of the strongest party in the house of commons, and ask him to pick a cabinet.

The labor regime will be under way. The more Britain studies the much

### Bok Peace Prize Awarded to Plan Similar to League

### SENATE PEEVISH OVER BOK PLANS FOR REFERENDUM

Treaty - Makers Show  
Signs of Irritation at  
League and Court Phases  
of Proposal.

BY RAYMOND CLAPPER.

Washington, January 6.—Announcement of the Bok peace plan award, and the elaborate arrangements for a nation-wide referendum by which an attempt will be made to reach 27,000,000 potential voters, have provoked such an amount of irritation in the senate that the real purpose of bringing about favorable action by this government appears likely to be frustrated unless there is a reversal of sentiment.

Senators received advance copies of the plan and when they saw that it provided for entrance into the world court as proposed by Harding, and co-operation with the League of Nations under conditions similar to the Lodge reservations, antagonism developed rapidly.

Conditions of the peace plan contest laid emphasis upon its practicality so much so that only half of the prize is awarded upon selection, the remaining \$50,000 to be given when the plan is approved by the senate, or when it is decided that an adequate degree of popular support has been accorded.

**Borah Is Caustic.**

It is probable that the demonstration of popular support can be made, inasmuch as the ballot calls for a yes or no vote upon the particular plan without offering any alternative plans. But the temper of the senate will have to change before any such referendum produces results in the way of concrete action by the treaty-making body.

Senator Borah, who is sympathetic to the world court plan, once it is divorced from the league, was particularly caustic in declaring that he would not pay the slightest attention to the referendum.

Senator Shields, democratic irreconcilable and member of the foreign relations committee, declared that the same well-financed propaganda which was interested in the League of Na-

Jury of Judges, Headed  
by Elihu Root, Chooses  
Winning Plan of 22,165  
Submitted.

BY THE ASSOCIATED PRESS.  
New York, January 6.—The American peace award tonight announced that plan number 1469 had been adjudged the best of 22,165 entered in competition for the \$100,000 offered by Edward K. Bok, Philadelphia publisher, for the best practical plan or which the United States might co-operate with other nations to prevent war.

In its essence this plan proposes first that the United States immediately enter the Permanent Court of International Justice, indorsed by the late President Harding, and second, without becoming a member of the League of Nations as at present constituted, should offer to co-operate with the league, under certain conditions, as a body of mutual counsel.

**Author Not Named.**  
The identity of the author is unknown to the jury of award and policy committee, except one delegated member. The authorship will not be disclosed until a nation-wide referendum has been taken to determine whether the plans meet with the support of Americans. This probably will not be until early next month.

Fifty thousand dollars is awarded the winner immediately. The rest of the prize goes to him if the country gives the plan its support.

The plan in brief, as officially submitted to the public by the policy committee, follows:

**Two Main Sections.**

"1.—That without becoming a member of the League of Nations as at present constituted, the United States shall offer to extend its present co-operation with the league and participate in the work of the league as a body of mutual counsel under conditions which:

"(A)—Substitute moral force and public opinion for the military and economic force originally implied in Articles 10 and 16;

"(B)—Safeguard the Monroe Doctrine;

"(C)—Accept the fact that the United States will assume no obligations under the treaty of Versailles except by act of congress;

"(D)—Propose that membership in the league shall be open to all nations;

"(E)—Provide for the continuing development of international law."

**The Jury of Award.**  
Elihu Root was chairman of the jury of award. Serving with him were: James Guthrie Harbord, Ed-

### CRISP HAS BILL TO CHECK UNJUST U. S. TAX CASES

Georgia Member of House  
Ways and Means Com-  
mittee Proposes Relief  
From Suits.

BY JAMES A. HOLLOMAN,  
Associate Editor The Constitution.  
Washington, January 6.—(Special.) Congressman Charles R. Crisp, of Georgia, member of the ways and means committee, has introduced a bill to reimburse payers of income taxes, the expenses incurred in defending themselves against incorrect and illegal governmental assessments after correct returns had already been made.

The bill, if enacted, will go a long way in curing one of the most outstanding evils of the present inquisitorial income tax laws, and it is sincerely hoped it will pass.

In all of the ramifications of the present incoherent and altogether incomprehensible income tax system the one most expensive and irritating feature has been the arrogant and most inexcusable demands of departmental agents against both individuals and businesses for additional tax payments, frequently running into the tens of thousands of dollars—these demands coming generally two or three years subsequent to the dates of filing the returns upon which the supplementary demands are made.

And what are the resources? Thousands have gone along and paid the claims, fearful of the consequences to business or personal liberty, and other thousands have put up stiff fights and paid stiff prices for putting them up.

And in the latter cases the great

### ITALIAN AVIATOR STICKS TO SEAT, DEFEATS STORMS

Milan, Italy, January 7.—The Italian aviator Perin, over whose fate much anxiety was felt, has survived a thrilling experience. He left Sestri-Casale, near Milan piloting a chaser hydro-airplane Monday intending to proceed to headquarters at Pola, after a stop at Venice. He did not reach Venice.

Last night he was found in the upper Adriatic still piloting his machine, which had safely ridden the heavy seas for four days.

### Big Wolf Comes To Confront Camp Once Too Often

Caught in Bear Trap, In-  
truder Is Shot to  
Death.

Lovers of big game hunting will greet with interest news that wolves are to be found within ten miles of the heart of Atlanta.

This became known Sunday when A. A. Clark, superintendent of public works for Fulton county, called The Constitution to tell of the catch made by Deputy Warden Claude Mills and a guard named Dukes at a convict camp near the river.

This camp is located on several thousand acres of ground owned by the county, upon which are raised live stock and vegetables of every variety.

For several nights past goats and pigs had been killed and partially devoured. A wolf was seen at dawn of day Friday and a steel bear trap was set.

Friday night and Saturday he came without getting caught, but Sunday proved his undoing. As the trap clanged to, his mate escaped in a hail of bullets.

The wolf, which is said to be one of the largest ever seen here, was shot to death.

### VENIZELLOS NEAR DEATH, IS REPORT

Aged Statesman Stricken  
With Stomach Poisoning  
and Inflammation of  
Heart.

Athens, January 6.—Ex-Premier Eleutherios Venizelos is critically ill with stomach poisoning and heart trouble, and it is feared he may be near death.

Venizelos collapsed Saturday from a heart attack after he had been elected president of the national assembly.

Physicians Sunday night diagnosed his illness as myocarditis (an inflammation of the walls of the heart) and stomach poisoning. The ex-premier is said to be exhausted mentally and physically. Two medical experts from the university here are attending him.

### DEMOCRATIC SUB FOR MELLON BILL IS MADE PUBLIC

Garner, of Texas, Bares  
Substitute Measure Pro-  
posed by Minority to Re-  
vise Taxes.

BY THE ASSOCIATED PRESS.  
Washington, January 6.—A substitute proposal for the Mellon tax revision plan was made public today by Representative Garner, of Texas, on behalf of himself and the other democrats on the house ways and means committee. The high spots are:

Fix normal income tax rates at 2 per cent on amounts of \$5,000 and under instead of three per cent under \$4,000 as Mr. Mellon proposes and of four per cent under existing law; instead of six per cent above \$4,000 as recommended by Mr. Mellon and of eight per cent under existing law; six per cent on all amounts in excess of \$10,000 instead of eight per cent under existing law.

Start the surtax graduation at one per cent on incomes from \$12,000 to \$14,000 instead of \$10,000 to \$12,000 as proposed by Mr. Mellon and \$6,000

Continued on Page 3, Column 1.

### NEWS OUTSIDE THE DOOR.

Visiting hedges and trees where berry-like seeds stay on all winter, the friendly cedar waxwings, seven inches long, soft, brownish colored dress, seem not the least afraid of human beings. Passing the winter throughout the United States they interest nature students by the peculiar red wax-work appendages to tail feathers and the ends of the secondaries. In summer when they build their nests in old pastures from northern California and North Carolina to Canada and Alaska, they are found in cherry trees at meal time. So some call them cherry birds.

They are very polite. Sitting in a row on a limb with berries at the outer end, one picks a berry and passes it along the line to the bird at the other end. Those near the fruit do not eat until the others are fed. They catch insects with the grace of the phoebe. When they have gorged themselves they sit in rows on high limbs digesting their lunch and pondering, apparently, on the goodness of the world in general.

J. OTIS SWIFT.

(The World Service, Copyright, 1924.)

### The Weather

Washington, January 6.—(Forecast.)—Georgia: Fair weather and rising temperature Monday and Tuesday; gentle variable winds.

Virginia and North Carolina: Fair and warmer Monday; Tuesday fair; fresh southwest winds.

South Carolina, Extreme Northwest Florida, Alabama and Mississippi: Fair weather and rising temperature Monday and Tuesday; gentle variable winds.

Florida: Fair Monday and Tuesday, warmer in north portion Tuesday; moderate northerly winds.

Tennessee and Kentucky: Fair and warmer Monday; Tuesday fair.

Louisiana: Arkansas, Monday and Tuesday fair, warmer.

Oklahoma: Monday fair, warmer; Tuesday fair.

East Texas: Monday fair, warmer; Tuesday fair, warmer except in north-west portion.

West Texas: Monday and Tuesday, generally fair.

### The Bok Peace Award

The winning peace plan, chosen from the thousands submitted to the American Peace Award, as a result of Edward Bok's offer of \$100,000 for the best practical plan by which the United States may cooperate with other nations, looking toward the prevention of war, has been chosen. The American people have been asked to pass upon it through a referendum conducted by hundreds of newspapers and organizations throughout the country. You will see the full text of the winning plan printed in the newspapers.

But, IF YOU WANT A PERSONAL COPY OF THE PLAN, together with a copy of the ballot by which YOU may vote on whether or not you think it is a good plan, The Constitution's Washington bureau has arranged to supply you. A pamphlet containing the full text of the plan and a ballot will be sent you if you will fill out the coupon below and send it to our Washington bureau:

PEACE AWARD EDITOR, Washington Bureau,  
The Atlanta Constitution,  
1522 N. Y. Ave., Washington, D. C.

I want a copy of the AMERICAN PEACE AWARD pamphlet and enclose herewith 4 cents in loose postage stamps to cover postage and mailing cost of same.

City \_\_\_\_\_ State \_\_\_\_\_

mined late Sunday night by fire officials and police conducting an investigation.

#### Enveloped in Flames.

Spreading rapidly, the blaze ate its way through the top floor in record time, firemen finding the building enveloped in flames upon their arrival.

All records and equipment within the building were destroyed by the fire.

Firemen were engaged in battling with this blaze until past noon Sunday, one of the companies remaining on the scene until 3:30 o'clock in the afternoon.

Solid sheets of ice covering streets in the section of Atlanta near the fire gave evidence of the amount of water used by firemen in combating the blaze.

The outer walls of the school building—the only evidence of the structure left—were draped with sheets of ice and icicles, as were trees and other buildings close by.

**City Sells Property.**  
The property, which was sold by the Adair Realty & Trust company as auctioneers for the city of Atlanta, was purchased by the A. S. Adams-Cates Realty company, who in turn had completed arrangements for its transfer to the Fulton county for a high school site.

The purchase price the county had agreed upon, it is said, was \$67,500. Chairman Paul S. Etheridge, of the finance committee of county commissioners, stated Sunday night that the amount of insurance carried was between \$25,000 and \$40,000.

Edwin F. Johnson, chairman of the board of county commissioners, stated Sunday night that the county board of education had obtained from the commissioners the promise to finance the purchase of the school site, and that the matter was referred to Commissioner Paul S. Etheridge to perfect and complete minor details.

Superintendent J. W. Simmons, of the Fulton county schools, stated that there would be a meeting of the board of education in his office in the courthouse at 10 o'clock Monday morning for the purpose of determining future plans. The board of education is composed of Joe Humphries, chairman, and E. Rivers, Arthur Wrigley, W. E. Taliaferro and Sam Adams.

#### Oglethorpe's Offer.

President Thornwell Jacobs Sunday offered school authorities to start new classes for all members of the senior class of Boys' High school who have fifteen years to their credit and who, with special attention, can enter college now and finish in four years.

"The offer is made out of a spirit of desire to aid Atlanta in the congested school situation that will follow the burning of Boys' High school," President Jacobs stated.

The matter will be discussed at the conference of school officials Monday morning.

#### BALDWIN REGIME SLATED TO FALL

Continued From First Page.

advised explosive content of a labor government, the more the nation becomes reconciled to a test of whether labor can rule.

Certain capitalists apparently are not convinced by labor statements that a capital levy is not imminent, for sales of securities and transfers of funds to foreign investments have occurred during the past week, driving down the value of the pound.

But the great mass of opinion sees a reassuring tone in labor declarations. In point of fact Ramsay MacDonald's hold on commons will not be secure enough to effect any radical legislation, even if he should harbor extremist plans. A liberal-conservative coalition can still defeat labor legislation.

## Hot Coffee Served Freezing Firemen as They Battle Great Blaze

Photos by Mathewson & Price, Staff Photographers.

Left to right: Scene at rear of school buildings where streams of water struck fence and froze into great icicles. Center, Sergeant L. W. Barfield, pouring coffee for Patrolman J. A. Allen. Right is a view of the twisted steel beams used in construction of the building.

ager of the Valdosta Lighting company, it begins to look as if the city will enter into a contract for a period of five years with the Valdosta Lighting company for hydro-electric current to be supplied under a contract the Valdosta concern has with the Georgia-Alabama company at Albany.

### Three Yeggmen Win to Freedom With Wooden Key

Fort Lauderdale, Fla., January 6.—Using a broomstick handle from which keys were fashioned with a safety razor, three alleged safe crackers escaped from the county jail late last night where they were being held for action of the circuit court.

The trio, Ira M. Holmes, 23, Lyman Shirley, 22, and Charles Gerken, 46, were arrested in Miami December 3 of last year after robberies in east coast cities were traced to them. The officers of the Broward Motor Sales company of this city are alleged to have been robbed by these men.

On the evidence of a peculiarly stamped penny of 1870 which was found in their possession and which was recognized by the manager of the Broward Sales company, where a safe was alleged to have been cracked, the three men were held for a higher court by County Judge Fred B. Shipper.

The escape was discovered last night by the wife of Deputy Sheriff W. C. Hicks and the key with which the escape was effected was found in the yard of the prison. Two doors were unlocked by the men and they scaled a glass-studded wall in getting away.

Descriptions and photographs of the men were broadcast early this morning by the sheriff's office and searching parties are also spread out to nearby sections.

The battleship was anchored. When the tugs returned this morning in search of the ship it could not be located. The local coast guard was notified and the cutters Manning and Mascoutin, accompanied by the mine sweeper, Owl, which was anchored in Hampton Roads, went to the assistance of the two small tugs. All day they searched for the battleship but when dark overtook them tonight their efforts to locate the battleship had been fruitless. There were several men aboard the battleship. A warning to navigation has been broadcast by the local coast guard.

The elevation to the peerage of Earl Robert Cecil serves as a reminder of the fact that for more than 300 years a Cecil has sat in the house of lords.

### FARMERS' MARKETS TOTAL \$2,000,000,000 DURING YEAR 1923

Washington, January 6.—Marketing organizations of farmers did more than \$2,000,000,000 worth of business last year.

Reports to the department of agriculture show business totaling \$490,000,000; 1,841 dairy products organizations, \$300,000,000; 1,182 livestock shipping associations, \$220,000,000; 956 fruit and vegetable associations, \$280,000,000; 78 cotton co-operatives, \$100,000,000, and 14 tobacco organizations, \$132,000,000. Only 8,313 of the 10,300 organizations have reported, of which 90 per cent were primarily engaged in selling farm products and 10 per cent in collective purchasing of farm supplies.

### Poincare Scores Sweeping Victory For Re-election

Paris, January 6.—In the senatorial elections today Premier Poincare was re-elected. He received 794 votes out of the 810 polled.

"I am deeply touched at this mark of confidence, which is intended less for the senator than for the chief of the government," said M. Poincare this evening in replying to congratulations on his reelection.

"We will pursue the policy of reparations you have approved," the premier continued, "pursuing it with stubbornness to a pacific triumph—until the complete execution of the Versailles treaty."

### Wood Welcomes Federal Probe Of His Affairs

Manila, January 6.—Discussing the resolution introduced by Representative Fearr which calls for a congressional inquiry into his administration, General Leonard Wood today declared he would welcome such an investigation, and he added, "I hope they'll hew to the line and let the chips fall where they may."

General Wood denied that any of his staff had investments in the Philippines with the exception of one constabulary officer, who owned a few shares in a sugar plantation.

### PIERRE VAN PAASSEN TO ADDRESS FLORISTS

The Atlanta Florists' and Horticulturists' club, affiliated with the Atlanta Retail Merchants' association, and composed of more than 100 Atlanta florists and their employees, will hold its first meeting of the new year at 8 o'clock Monday night on the second floor of the Chamber of Commerce assembly hall. The feature speaker of the occasion will be Pierre Van Paassen, of The Constitution. In addition, a number of special entertainment features have been planned by the entertainment committee, of which Mrs. J. L. Harper is chairman.

At this meeting plans for an annual flower show will be discussed at length and it is expected definite arrangements will be reached for making this flower show one of the big annual civic events in Atlanta. The officers of the florists' club at the present time are E. A. Wachendorf, president; R. G. Lyon, vice president; H. S. Gilson, secretary, and Mrs. J. S. Garfield, treasurer.

Lord William Taylor, son of the marchioness of Headfort, is a clerk in a New York bank.

### Georgia Leaders To Attend Great Jubilee Convention

Announcing its "Thirty-Year Jubilee convention," the Anti-Saloon league of America will hold its 21st national convention in the city of Washington, D. C., January 12-16, 1929, "emphasizing" in its program "the fourth anniversary of the going into effect of the 18th amendment on January 16."

Special railroad rates have been allowed by all (and connecting) lines entering Washington of one and one-half fare for the round trip, and a great host is expected to attend this historic convention.

From Georgia, quite a company has been named to go. At the head of the Georgia delegation will be Dr. Charles O. Jones, state superintendent (for Georgia) of the Anti-Saloon League of America.

Georgia delegates appointed by Governor Clifford Walker to the national convention are as follows: Joe Lawrence, Ashburn; Rev. S. E. Watson, Athens; Dr. S. R. Bell, Dr. L. O. Bricker, Dr. Charles W. Daniel, Dr. E. F. Dempsey, John J. Egan, Dr. Charles C. Jarrell, Hon. Edmund W. Martin, Louis D. Newton, Mrs. Alonzo Richardson, Mrs. Marvin Williams, W. C. Williams, Sr., Atlanta; L. L. Arrington, L. S. Arrington, Rev. B. F. Fraser, John Phinizy, Augusta; Honorable J. D. Smith, Romeville; T. W. Harbin, Calhoun; L. C. Mandeville, Carrollton; E. B. Russell, Cedarstown; Dr. W. L. Cook, Rev. J. A. Henderson, Columbus; Dr. L. G. Hardman, J. F. Shannon, Commerce; W. C. Martin, Dalton; Rev. D. P. McGeech, Roy E. White, Decatur; Dr. A. S. J. Stovall, Elberton; Mrs. Leila A. Dillard, Emory university; Rev. W. P. King, Gainesville; Judge C. L. Bryson, Jefferson; W. J. Beeland, R. F. Burton, Nat. E. Harris, George S. Jones, Charles B. Lewis, Rev. William Russell Owen, D. S. Waggon, Macon; Dr. Addison K. Bell, Madison; Rev. E. A. Caldwell, Monroe; Mrs. J. P. Hays, Monticello; Rev. C. M. Ledbetter, Corbett, Nashville; Rev. C. M. Ledbetter, Pelham; Judge W. M. Goodwin, Sandersville; Rev. N. L. Anderson, G. P. Armstrong, Zanier, James A. Thomas, Savannah; Fred T. Vance, Statesboro; Rev. W. A. Tyson, Swainsboro; Rev. W. A. Hucklebar, Sylvester; Judge H. W. Hopkins, Thomasville; J. C. Stovall, Thomas; Will H. Rev. Homer L. Grice, Washington; R. R. Brown, Walnut Grove; J. L. Betts, Woodbury.

Dr. Charles O. Jones will leave on Tuesday, January 8, to attend at St. Louis, Mo., where he will address the annual address by Bishop Thomas Nicholson, president of the Anti-Saloon League of America.

Thirty-minute addresses by C. B. Griffith, attorney general of Kansas, "Law Enforcement and the Constitution," H. S. Dinsley, Baltimore, Maryland; W. N. Perkins, U. S. senator from Michigan; Bishop James Cannon, Jr., Washington, D. C.; Lister Hill, congressman from Alabama.

2 P. M.—Bishop Thomas Nicholson, presiding.

Devotionals.

Thirty-minute addresses by Elwood Haynes, Kokomo, Ind.; Wesley I. Jones, U. S. senator from Washington; William D. Upshaw, congressman from Georgia; Simon D. Foss, U. S. senator from Ohio; William C. Crampton, congressman from Michigan; "Enforcing Law in a Big City," Rev. 7:30 P. M.—Bishop Thomas Nicholson, presiding.

The Landley-Christman dramatic debate. Addresses by George W. Watson, Pepper, S. senator from Pennsylvania; Pat Neff,

governor of Texas.

Tuesday.

## QUINN SMASHES BONUS OPPONENTS

Indianapolis, Ind., January 6.—Making reply for the American Legion to opponents of adjusted compensation, John R. Quinn, national commander, in a letter today addressed to representatives in congress, accused employers of coercing their ex-service men employees into writing letters to senators and congressmen in opposition to the proposed adjusted compensation bill.

The anti-bonus propagandists, said Commander Quinn, "take as their slogan 'everything for the disabled; nothing for the able bodied.' Yet, not one of these has ever appeared before congress to urge passage of legislation for the disabled during the four years the American Legion has made the disabled man's cause its own.

"The organizers of the present unfair barrage of propaganda," the letter continues, "are boasting of being able to delay congressional action on the adjusted compensation bill so that their propaganda may, through its force, cause members of congress to desert the soldiers' cause. Five years ago, the American doughboy went over the top in spite of the barrage of steel falling around him. He stood his ground then, and he has every confidence that American senators and representatives will stand their ground and not desert him because of a mere barrage of organized propaganda.

"The adjusted compensation bill is now in the ways and means committee of the house of representatives. The American Legion respectfully urges the congress to have the bill brought before the house immediately for action.

"The country can afford to meet this obligation. It should meet it promptly and without delay. It is perfectly evident that congress can enact the adjusted compensation bill and also provide for substantial reduction in taxes."

### Railways Offer \$800 in Prizes To Halt Crashes

Washington, January 6.—Inauguration of a poster and slogan contest for material to be used in a nationwide campaign "to save lives at railroad crossings" was announced today by the American Railway association.

A \$500 first prize for the best poster will be paid by the association with a \$200 second prize and \$100 for the best slogan. A special committee of "national prominence" will be named to make the award and the contest will close February 11 on the eve of the opening of the crusade. H. A. Rowe, 90 West street, New York, is chairman of the contest committee.

# DEMOCRATIC SUB FOR MELLON BILL

Continued From First Page.

To \$8,000 under existing law. The rate would increase progressively to a maximum of 44 per cent on incomes of \$92,000 and more as compared with the Mellon proposal for a maximum of 25 per cent on incomes in excess of \$100,000, and the present maximum of 50 per cent on incomes of more than \$200,000.

**Increase Exemption.**  
Increase the exemption of the head of a family from \$2,500 to \$3,000 and for a single person from \$1,000 to \$2,000. The Mellon plan would continue the present exemptions.

Fix the deduction allowed on earned incomes at 33 1/3 per cent instead of 25 per cent as recommended by the treasury secretary, and broaden the provision so as to include farmers owning and personally operating their farms and merchants and tradesmen who combine capital and personal service for the purpose of earning income.

Representative Garner, in a formal statement outlining the minority's program, made this reference to the so-called nuisance taxes:

"There was no reason to single out one or two of the miscellaneous or nuisance taxes as Secretary Mellon did and propose their repeal without at the same time carefully analyzing the entire mass of these taxes, including those on automobile trucks, jewelry, candy, stamps or notes, etc. and offering the maximum of relief."

**Defines the Goal.**  
"Honest and equitable practicable taxation is the goal of the democratic party," Mr. Garner said. "The foregoing proposals are in pursuance of this policy. Resting upon sound economics we believe that they do full and equal justice to taxpayers, large and small, individual and corporate and avoid the extreme view of any class."

"We ask an unbiased comparison of the democratic tax proposals with the Mellon proposals and with full confidence invite the deliberate judgment of taxpayers and of all the people."

Mr. Garner said the democrats would give wholehearted support to "many good features" of the Mellon program, particularly the provisions aimed at more efficient administration of the revenue law and to closing up avenues of tax evasion. He added, "The general idea of readjusting downward normal rates and surtax rates in many instances together with reduced rates on income derived from personal service, is excellent."

**No Democrat Consulted.**  
Pointing out that no democrat had been consulted in the preparation of the Mellon plan, Mr. Garner said the minority members of the ways and means committee had only just now

## TABLE OF COMPARISON OF LAW AND PLAN.

Washington, January 6.—This comparison of the tax on married persons without dependents under the Mellon plan and the democratic plan was made public tonight by Representative Garner as follows:

Income.	Present Law.	Mellon Plan.	Democratic Plan.
\$ 5,000-	\$ 100	\$ 75	\$ 40
10,000-	320	360	240
20,000-	1,720	1,260	1,040
30,000-	3,520	2,660	2,340
40,000-	5,840	4,540	4,140
50,000-	8,640	6,680	6,440
60,000-	11,940	8,980	9,240
70,000-	15,740	11,640	12,740
80,000-	20,040	14,040	16,350
90,000-	24,840	16,880	21,450
100,000-	30,140	19,940	26,430
200,000-	86,640	52,740	76,430

been able to reach preliminary conclusions relative to some phases of the Mellon proposal.

The democratic surtax rates are as follows:

One per cent on net income between	Two per cent on net income between
\$12,000 and \$14,000.	\$18,000 and \$19,000.
Four per cent, \$18,000 to \$20,000.	Five per cent, \$20,000 to \$22,000.
Six per cent, \$22,000 to \$24,000.	Seven per cent, \$24,000 to \$26,000.
Eight per cent, \$26,000 to \$28,000.	Nine per cent, \$28,000 to \$30,000.
Ten per cent, \$30,000 to \$32,000.	Eleven per cent, \$32,000 to \$34,000.
Twelve per cent, \$34,000 to \$36,000.	Thirteen per cent, \$36,000 to \$38,000.
Fourteen per cent, \$38,000 to \$40,000.	Fifteen per cent, \$40,000 to \$42,000.
Sixteen per cent, \$42,000 to \$44,000.	Seventeen per cent, \$44,000 to \$46,000.
Eighteen per cent, \$46,000 to \$48,000.	Nineteen per cent, \$48,000 to \$50,000.
Twenty per cent, \$50,000 to \$52,000.	Twenty-one per cent, \$52,000 to \$54,000.
Twenty-two per cent, \$54,000 to \$56,000.	Twenty-three per cent, \$56,000 to \$58,000.
Twenty-four per cent, \$58,000 to \$60,000.	Twenty-five per cent, \$60,000 to \$62,000.
Twenty-six per cent, \$62,000 to \$64,000.	Twenty-seven per cent, \$64,000 to \$66,000.
Twenty-eight per cent, \$66,000 to \$68,000.	Twenty-nine per cent, \$68,000 to \$70,000.
Thirty per cent, \$70,000 to \$72,000.	Thirty-one per cent, \$72,000 to \$74,000.
Thirty-two per cent, \$74,000 to \$76,000.	Thirty-three per cent, \$76,000 to \$78,000.
Thirty-four per cent, \$78,000 to \$80,000.	Thirty-five per cent, \$80,000 to \$82,000.
Thirty-six per cent, \$82,000 to \$84,000.	Thirty-seven per cent, \$84,000 to \$86,000.
Thirty-eight per cent, \$86,000 to \$88,000.	Thirty-nine per cent, \$88,000 to \$90,000.
Forty per cent, \$90,000 to \$92,000.	Forty-one per cent, \$92,000 to \$94,000.
Forty-two per cent, \$94,000 to \$96,000.	Forty-three per cent, \$96,000 to \$98,000.
Forty-four per cent, \$98,000 and above.	

**Difference Stated.**  
In the Mellon bill the surtax would begin at one per cent on net income from \$10,000 to \$12,000 and increase progressively one per cent for each \$2,000 up to \$36,000; then an additional one per cent for the next \$1,000 and then beginning at \$40,000 one per cent for each \$6,000 to a maximum of 25 per cent on \$100,000 or more.

Under existing law surtaxes begin at one per cent on incomes between \$8,000 and \$10,000 and increase to a maximum of 50 per cent on incomes exceeding \$200,000.

"The difficulty of the treasury or any person fixing a just and scientific scale of surtax rates is obvious," Mr. Garner said, "in view of the fact that the larger portion of income subject to these rates is derived from corporate profits, especially after the proposed reduction of rates on earned incomes goes into effect. This is true because during recent years, or at least prior to 1922, corporation owners have been retaining in their corporations more than 60 per cent of the corporate profits, while distributing less than an average of 40 per cent as paying surtaxes thereon."

**Taxes Are Affected.**  
"For the years 1919, 1920 and 1921, the aggregate corporate profits, after paying all expenses and profits and other taxes, except the income tax proper, were nineteen billion dollars, while only \$7,000,000,000 was distributed as dividends and paid surtaxes. It is apparent, therefore, that the proper scale of surtax rates is greatly affected by the extent to which the corporate profits are distributed or retained in the corporation."

"We are obliged to keep in mind also that surtax rates are to a considerable extent nominal rather than actual. For example, an income of \$100,000 is subjected to 45 per cent surtax under existing law, but the total tax paid is \$30,000, or 30 per cent of the income instead of the prescribed 45 per cent. The proposed 33 1/3 per cent reduction on income derived from personal service as distinguished from property or capital invested will only tend to equalize the amount of taxes paid on earned and unearned income, respectively, as is patent from the foregoing recital."

**Relieve Small Earners.**  
"The raising of individual exemptions to \$2,000 and \$3,000, respectively, will result only in tax losses of between \$100,000 and \$50,000,000 but will relieve between 800,000 and 1,000,000 individuals who now make tax returns but pay no taxes on account of deductions allowed and will also relieve 1,540,000 laborers and small farmers and merchants whose tax is less than \$12 each, not to mention heads of families now in the \$2,000 to \$3,000 bracket, and will at the same time relieve the treasury of a tremendous burden and expense where but a small amount of tax is involved."

"With the understanding that tariff tax reduction measures should be kept separate from and should in no wise affect the consideration of internal tax reduction legislation we are unanimously of the opinion that substantial and immediate relief should be had from several phases of existing outrageous tariff tax extortions. The present astonishingly high tariff taxes constitute the outstanding factor in the existing high cost of living."

**Are Surtax On Masses?**  
"These monstrous high rates constitute a surtax upon the masses even higher than the income surtaxes on individuals. It would not only be absurd, therefore, but it would be downright dishonest for an official to pretend to support general tax relief and to limit the same to a small group of citizens and to one phase of taxation to the exclusion of tariff taxes bearing so heavily upon our 110,000,000 population. A special tariff measure curbing substantial reductions on most articles the farmers must buy would give several hundred million dollars relief to agriculture. A number of other special tariff measures cutting down the more aggravated high rates in the existing law so as to contribute generally to the reduction in the high cost of living and the lowering of existing artificial and profiteering prices in many essential lines should undoubtedly be considered during the present session of congress."

The Mellon tax bill will be further considered tomorrow by the ways and means committee and at the same time there will be general discussion of the tax question on the floor of the house. Mr. Garner and Representative Frear, of Wisconsin, one of the republican insurgents who has made a study of the tax question for his group, have been allotted time for this discussion.

## OFFICERS ARE ELECTED FOR QUITMAN CLUB

Quitman, Ga., January 6.—(Special.)—All officers were re-elected and the old board of directors chosen by unanimous vote at the annual meeting of Quitman County club, followed by the reading of the annual report of the president.

The officers chosen are: Charles T. Tillman, president; Walter R. Hunter, president; Charles F. Cater, secretary and treasurer.

## SENATE IS PEEVISH OVER BOK PLANS

Continued From First Page.

tions is now being invoked on a more elaborate scale.

**Revival of League.**

Senator Moses, of the foreign relations committee, when asked to express his opinion said the Bok plan was the revival of the league question settled four years ago.

Senator Robinson, minority leader, said the senate is peevish about the Harding world court plan, thought the referendum would be of little value in guiding congress.

As it happens, the senate is about to take up the question of Russian propaganda, and the efforts in behalf of the Bok plan are likely to come under discussion at the same time.

It may break forth when Lodge discusses Russian propaganda Monday. At any rate the Reed resolution under which the senate foreign relations committee will investigate Russian propaganda covers all efforts to affect the foreign and domestic policies of the United States, that the supporters of the world court and the League of Nations will utilize this opportunity to begin their attack on the Bok plan.

**SENATORS COMMENT ON BOK PROPOSAL.**  
Washington, January 6.—Comment of leading senators on the Bok peace award and the nation-wide referendum has been made to the United News as follows.

Senator Borah, Idaho, republican irreconcilable, member of the foreign relations committee: "The way in which the referendum is to be taken on the prize winning Bok peace plan would not cause me to pay the slightest attention to it. If it were presented to the people in such a way as to allow them plenty of time to study and discuss it, it might have some effect on me, but just to ask people whether they are in favor of peace or not is not truly a referendum on such a serious proposition as entering an international body of arbitration."

Senator Robinson, Arkansas, democratic leader, and advocate of the League of Nations and the World Court: "I don't see how the referendum which is called for in the prize winning Bok peace plan would be of much value in guiding congress in its deliberations. There is no way to reach 15,000,000 or more persons with their ballots, but these persons would not be in a position to really know what they were voting on. Of course, I favor a world court as outlined by President Harding, but how many people really know what this world court is?"

Senator Shields, Tennessee, democratic irreconcilable and member of the foreign relations committee: "The attempt to create public opinion in favor of the prize winning Bok plan is greater in comprehension and detail than that which was attempted by those financially and commercially interested in the League of Nations, and it involves expenditures of terrific sums of money which doubtless came from the same sources. I don't see how this referendum participated in by those who have not considered the proposition thoroughly can be of any importance. It is simply an attempt to divert the public mind from the question of taxation, which should be given strict attention at the present time."

Senator Swanson, Wilson democrat, and member of the foreign relations committee: "I am in favor of entering the World Court under the conditions outlined by President Harding in his original message to congress and as later stated by Secretary of State Hughes. As to becoming a member of the League of Nations as the plan states, shall have to give that further consideration."

## CIVIC ASSOCIATIONS HOLD JOINT MEETING

Twelve civic ward associations of Atlanta will unite with the Ninth Ward association at 8 o'clock tonight in an open meeting to be held in the Highland school. Plans for co-operation during the new year will be discussed.

## Stubborn coughing

is a needless waste of strength. And it increases the irritation that is causing the cough. Stop it quickly. Dr. Bell's Pine-Tar Honey combines the very same medicines which the ablest doctors use with the old time, well-tried remedy—pine-tar honey that generations have relied upon. It swiftly loosens the hard-packed phlegm, soothes the inflamed throat and lung tissue and restores normal breathing. Tastes good, too. Keep Dr. Bell's on hand for all the family.

All druggists. Be sure to get the genuine.

# 28 FIRES KEEP DEPARTMENT BUSY

Twenty-seven fires in addition to the Boys' High blaze, a number of which were caused by defective flues, were reported Sunday night.

Heavy damages to stocks of goods from water, caused by broken water pipes, were reported at the Wormser Hat store, 42 Marietta street, and Kelley Bros', wholesale grocery store, 10 Nelson street.

Homes that were damaged by exploding stoves included those of Mrs. Rose Berger, 123 Woodward avenue; Mrs. Y. Mandies, 289 Washington street; J. E. Kaplan, 205 East Georgia avenue, and Morris Merlin, 47 Evans street.

A defective flue caused a blaze in the office of the Patterson Lumber company, 358 Highland avenue, early Sunday afternoon, which for a while threatened serious damage.

Quick work of the firemen, however, held the loss to \$2,000.

This same cause was reported by firemen as responsible for the blaze which damaged the home of C. R. D. Holley, 294 Myrtle street.

Four houses were damaged by fires caused by sparks from chimneys, as follows: A. T. Brooks' home, 8 Poole de Leon place; 126 1/2 Howell street,

occupied by David Powell; 56 Tanner street, occupied by Monroe Pittman; 155 Whitehall street, home of John Thomas, and 416 Houston street, occupied by Otis Speer.

Small fires were reported at the homes of F. A. Hixon, 200 East Hunter street; Charles Smellan, 303 Washington street; J. P. Riley, 491 Capitol avenue; L. W. Long, 232 Woodlawn street; A. L. Peck, 103 Clifton road, and 103 Whitehall street, occupied by C. L. Powers.

A fireman, who declined to give his name to hospital authorities and reporters, appeared for treatment of frozen fingers. The thumb and all fingers on the right hand had been paralyzed by the cold.

## AUSPICIOUS OPENING REPORTED BY G. M. A.

The new year has brought an enthusiastic reopening of Georgia Military academy with every place in the institution filled. A large number of new pupils from almost every section of the south registered for the remaining part of the year. Every member of the cadet corps reported on time except those detained on account of sickness.

Captain John Mangham, the first honor graduate of last year's class, has entered the University of Georgia and came by Georgia Military academy in order to say good-bye to his friends.

# CRISP BILL TO CHECK UNJUST TAX CASES

Continued From First Page.

majority of them have found their original reports were entirely correct and others have found that the government had already been overpaid.

But the sad feature of it all is that the taxpayers have had to foot the bills for showing the government agents their own mistakes. That is wrong. It is to cure this wrong that the Georgian has introduced this bill. It should pass.

The full text of the Crisp bill follows:

"A bill to reimburse tax payers their reasonable costs in prosecuting appeals from the action of the commissioner of internal revenue in assessing additional taxes against them when, upon review, it shall be determined that the tax-payers' original returns were fair, honest, and substantially correct."

It is enacted by the senate and house of representatives of the United States of America in congress assembled, that, when any tax payer makes a fair, honest, and substantially correct return as to the taxes due by him to the United States under its internal revenue laws, and the commissioner of internal revenue assesses additional taxes against him, the tax payer shall be entitled to reimbursement of his reasonable costs in prosecuting appeals from the action of the commissioner of internal revenue in assessing additional taxes against him when, upon review, it shall be determined that the tax-payers' original returns were fair, honest, and substantially correct."

Section 2. That the amount paid out by the tax payer for auditing fees, attorneys' fees, clerical help, railroad transportation, and hotel bills shall be prima facie reasonable costs in the premises and the burden shall be upon the government to prove that said sums so expended were not reasonable costs in the case reviewed."

Section 3. That the amount paid out by the tax payer for auditing fees, attorneys' fees, clerical help, railroad transportation, and hotel bills shall be prima facie reasonable costs in the premises and the burden shall be upon the government to prove that said sums so expended were not reasonable costs in the case reviewed."

Section 4. That the amount paid out by the tax payer for auditing fees, attorneys' fees, clerical help, railroad transportation, and hotel bills shall be prima facie reasonable costs in the premises and the burden shall be upon the government to prove that said sums so expended were not reasonable costs in the case reviewed."

Section 5. That the amount paid out by the tax payer for auditing fees, attorneys' fees, clerical help, railroad transportation, and hotel bills shall be prima facie reasonable costs in the premises and the burden shall be upon the government to prove that said sums so expended were not reasonable costs in the case reviewed."

Section 6. That the amount paid out by the tax payer for auditing fees, attorneys' fees, clerical help, railroad transportation, and hotel bills shall be prima facie reasonable costs in the premises and the burden shall be upon the government to prove that said sums so expended were not reasonable costs in the case reviewed."

Section 7. That the amount paid out by the tax payer for auditing fees, attorneys' fees, clerical help, railroad transportation, and hotel bills shall be prima facie reasonable costs in the premises and the burden shall be upon the government to prove that said sums so expended were not reasonable costs in the case reviewed."

Section 8. That the amount paid out by the tax payer for auditing fees, attorneys' fees, clerical help, railroad transportation, and hotel bills shall be prima facie reasonable costs in the premises and the burden shall be upon the government to prove that said sums so expended were not reasonable costs in the case reviewed."

Section 9. That the amount paid out by the tax payer for auditing fees, attorneys' fees, clerical help, railroad transportation, and hotel bills shall be prima facie reasonable costs in the premises and the burden shall be upon the government to prove that said sums so expended were not reasonable costs in the case reviewed."

Section 10. That the amount paid out by the tax payer for auditing fees, attorneys' fees, clerical help, railroad transportation, and hotel bills shall be prima facie reasonable costs in the premises and the burden shall be upon the government to prove that said sums so expended were not reasonable costs in the case reviewed."

Section 11. That the amount paid out by the tax payer for auditing fees, attorneys' fees, clerical help, railroad transportation, and hotel bills shall be prima facie reasonable costs in the premises and the burden shall be upon the government to prove that said sums so expended were not reasonable costs in the case reviewed."

Section 12. That the amount paid out by the tax payer for auditing fees, attorneys' fees, clerical help, railroad transportation, and hotel bills shall be prima facie reasonable costs in the premises and the burden shall be upon the government to prove that said sums so expended were not reasonable costs in the case reviewed."

Section 13. That the amount paid out by the tax payer for auditing fees, attorneys' fees, clerical help, railroad transportation, and hotel bills shall be prima facie reasonable costs in the premises and the burden shall be upon the government to prove that said sums so expended were not reasonable costs in the case reviewed."

Section 14. That the amount paid out by the tax payer for auditing fees, attorneys' fees, clerical help, railroad transportation, and hotel bills shall be prima facie reasonable costs in the premises and the burden shall be upon the government to prove that said sums so expended were not reasonable costs in the case reviewed."

Section 15. That the amount paid out by the tax payer for auditing fees, attorneys' fees, clerical help, railroad transportation, and hotel bills shall be prima facie reasonable costs in the premises and the burden shall be upon the government to prove that said sums so expended were not reasonable costs in the case reviewed."

Section 16. That the amount paid out by the tax payer for auditing fees, attorneys' fees, clerical help, railroad transportation, and hotel bills shall be prima facie reasonable costs in the premises and the burden shall be upon the government to prove that said sums so expended were not reasonable costs in the case reviewed."

Section 17. That the amount paid out by the tax payer for auditing fees, attorneys' fees, clerical help, railroad transportation, and hotel bills shall be prima facie reasonable costs in the premises and the burden shall be upon the government to prove that said sums so expended were not reasonable costs in the case reviewed."

Section 18. That the amount paid out by the tax payer for auditing fees, attorneys' fees, clerical help, railroad transportation, and hotel bills shall be prima facie reasonable costs in the premises and the burden shall be upon the government to prove that said sums so expended were not reasonable costs in the case reviewed."

Section 19. **Keeps Open House**

W. M. Bourgeois, commander of the local post of the Salvation Army, told The Constitution Sunday night that his organization had kept open house all Saturday night and Sunday and had afforded relief in all cases of necessity either applying or reported. Automobiles requiring fuel and food were kept running all night.

"While the number of cases of applicants was, of course, heavy," he stated, "do not believe there was much suffering in Atlanta. Of course, there are some cases which cannot be reached, but I am of the opinion that the situation was admirably and thoroughly covered here."

The commander added that individuals are invited to report cases of real need to the relief department of the Salvation Army. Adjutant Eunice McCrea is in charge, and she can be reached at Hemlock 1940.

### FREEZE EXPECTED TO HURT WEEVIL.

Americans, Ga., January 6.—(Special.)—Americans residents hovered to in the grasp of the coldest weather since 1917. The thermometer reached a minimum of eight degrees above zero, and freezing weather continued all day, the maximum temperature registered late this afternoon.

Hundreds of homes here are without water and attendant conveniences either as a result of frozen pipes or because the supply was cut off to prevent freezing.

In the rural communities, however, the freeze is regarded as a most fortunate circumstance, as it is believed that the spring crop of boll weevils will be greatly curtailed thereby. Reports reaching American to this afternoon said that the effect had not been seriously injured as a result of the freeze, although many green vegetables have been destroyed and thousands of beautiful flowering plants ruined.

### SAVANNAH IN WAKE OF WAVE.

Savannah, Ga., January 6.—(Special.)—Practically everything around Savannah except the ocean and the arctic winds were frozen tight this morning.

Mercury fell to about 20, and there were warnings that it was impossible to protect outdoor vegetation which, from warm sunny weather of the past week, was luxuriant.

Truck gardens are hard hit, peach trees in bloom, roses and poinsettias, hyacinths and azaleas, by diseases and banana trees were killed.

Plumbers were busy this afternoon. Leaks warmed and pipes burst, while men were as busy as bees. Considerable suffering is reported among those who did not expect such a spell and were not able to prepare for it if they had expected it.

### MOULTRE SUFFERS LITTLE DAMAGE.

Moultrie, Ga., January 6.—(Special.)—The coldest weather known here in a decade is not expected to do any serious damage to the grain crop in the Moultrie section, farm observers stated this afternoon. Oats will be hurt in some places, but the opinion was expressed that a fairly good stand would be left in most fields. Unofficial temperatures here Sunday morning registered 10 degrees above zero, or two degrees colder here than it was the most frigid day in 1917.

### DEATHS AND FIRES IN WAKE OF COLD

Continued From First Page.

In Grady hospital from burns received Saturday night when her clothing became ignited while she was standing before an open fireplace. She was fatally burned before members of the family could extinguish the flames. She was taken to Grady hospital, dying at 1:30 o'clock Sunday afternoon.

She is survived by one son, W. F. Wait; one grandson, W. J. Wait, and one sister, Mrs. Ethel Crews, all of Atlanta.

The body will be removed to Greenville S. C., Tuesday, it was announced by the T. C. Bazemore funeral directors, who are in charge.

Mrs. L. D. Barber, 65, of 69 Richmond street, is in a critical condition in Grady hospital, suffering from burns received in her home when her clothing caught fire from an open grate.

Her husband, who was at home and aided her, was severely burned. After treatment of his own injuries, he remained at the bedside of his wife, whose recovery physicians say is doubtful.

Others carried to Grady for treatment for burns were Oscar Dwoskin, 200 Atlanta avenue, and Ozell Black, rural route No. 2, Atlanta.

The former is said to have been burned in the explosion of the radiator of an automobile. He was scared about the face and neck. Blacklock was severely burned about the hips and back, although doctors were not told how.

### ROME HAS COLDEST DAY IN 25 YEARS.

Rome, Ga., January 6.—(Special.) Northwest Georgia is slowly recovering from the effects of the coldest weather this section of the state has known in almost a quarter of a century. Scores of residences are still without water because of frozen pipes, many hot water heaters are out of commission, and accidents to automobiles because of frozen radiators are reported in unprecedented numbers.

The mercury dropped at 3 o'clock this morning to two degrees above zero, the lowest mark it has known since the memorable freeze of February 13, 1899, when the all time low mark for this city was set, as the mercury dropped to seven below zero. In 1905 a record of three above was set, the nearest approach to the present record in the present century. Only twice before in the history of weather records in this city has the present record been beaten—in 1890 and in 1895 when a mark of five below was set.

At 5 o'clock this afternoon the mercury stood at 23, as against 15 at the same hour yesterday.

### AUGUSTA EXPERIENCING ITS COLDEST WEATHER.

Augusta, Ga., January 6.—With the thermometer registering 23 degrees above zero this morning, and only registering 21 at the highest point for the day, Augusta is experiencing the coldest weather since 1917.

Beginning late Saturday afternoon when the thermometer showed thirty degrees the mercury began to fall steadily and at midnight it went to 10.

### CLARK'S 21st MEDITERRANEAN CRUISE

Feb. 2, by specially chartered White Star S. S. "BALTIMORE"

Vacancies at attractive rates.

65 days \$600 up including hotels, drives, meals, fees, visiting Madeira, Spain, Athens, Constantinople, 18 days in Egypt and Palestine, Naples, Rome, Monte Carlo, etc. Stopover in Europe and return by monster "Majestic," "Olympic," "Homeric," etc.

4th CRUISE, JAN. 30 from LOS ANGELES or JAN. 15 from NEW YORK

### ROUND THE WORLD

"LACONIA" 20,000 tons reg.

There is still time to arrange passage. We expect to carry 600 to 700 passengers on each cruise.

FRANK C. CLARK, Travel Agent, New York, 2, 1, NORTH, 24 North-Broad Street

## THE CONSTITUTION, ATLANTA, GA., MONDAY, JANUARY 7, 1924.

temperature today was ten above zero.

**FOUR BURN IN ILLINOIS TOWN.**

Peroria, Ill., January 6.—Four men lost their lives in a fire at Rushville, Ill., early this morning which destroyed five buildings on the town's square.

### FOUR DIE OF COLD IN PITTSBURGH.

Pittsburgh, Pa., January 6.—Four deaths attributed to the cold wave today. Two persons were frozen to death during the night and two others, a child and an aged man, were fatally burned while dressing in front of open fires.

The "open fire" victims were Martha Edenburg, 2, and August Fier-shie, 75.

The body of Gilbert M. Davis was found in an alley near his home and officials believe he was rendered unconscious by a fall and became a victim of the biting cold.

Neighbors found the frozen body of Alice Watters, an aged negroess, in the home where she lived alone. There was no fire in the little home and covering the body were only a few thin quilts.

The temperature reached five below zero in some sections of the city.

### CALIFORNIA RESORT WIPED OUT BY FIRE.

Ocean Park, Calif., January 6.—Damage estimated at more than \$1,500,000 was caused by a fire that virtually wiped out the amusement district here today.

The fire was controlled after it had destroyed three piers, hundreds of concessions, several theaters and dance halls and had damaged the municipal auditorium.

### \$500,000 LOST IN ST. LOUIS BLAZE.

St. Louis, January 6.—Damage in excess of \$500,000 was caused by a fire which broke out in the business district here today and for a time threatened to assume the proportions of a conflagration.

The flames gutted the four-story buildings occupied by the Day Hub, the Schaefer-Prominent company, and the Rhodes-Burford Furniture company, damaged the Nugent Brothers department store and several other buildings in the vicinity of Broadway, Saint Charles and Fourth streets. The fire started in the basement of the Day Hub, an underground cause. Tonight firemen still were directing streams of water on the ruins.

### ONLY PARTIAL RELIEF FROM COLD IS PROMISED.

Washington, January 6.—Only partial relief from the severe cold weather that gripped the east and southeastern part of the country carrying freezing temperatures as far as central Florida, during the week-end, was promised tonight. While the weather bureau predicted rising temperatures for the South Atlantic and East Gulf states, it pointed out that in the Atlantic states north of Virginia, the upper Ohio valley and the lower lake region, it will be Tuesday.

Show flurries were expected along the northern border within the past twenty-four hours, with fair skies prevailing over the rest of the country. The western Canadian provinces have again become the theater for cold weather.

The weather bureau's statement to-night said:

"There will be snow flurries Monday in northern New England, northern New York and along the lower lakes. Otherwise the weather will be fair Monday and Tuesday through out the eastern and southeastern states."

"The temperature will rise Monday in the Ohio valley, the middle Atlantic states and southern New England and Monday and Tuesday in the south Atlantic and East Gulf states. The weather will be colder Tuesday in the Atlantic states north of Virginia, the upper Ohio valley and the lower lake region."

"Southwest storm warnings are displayed on the Atlantic coast at and north of Delaware breakwater."

### THREE BURN TO DEATH IN PHILADELPHIA.

Philadelphia, January 6.—Three persons were burned to death in the late section today in fires believed to have been started by overheated stoves. The charred bodies of Mr. and Mrs. E. H. Harrington were found in the ruins of their home near Coatesville, Pa., where a fire had destroyed a restaurant building in Bethlehem. The lowest

### ALABAMA GIRL DIES OF BURNS.

Opelika, Ala., January 6.—Miss Mollie Harrison, daughter of the late General George F. Harrison, at one time commander-in-chief of the United Confederate Veterans, died here today of burns received early this morning when her gown caught fire from an open grate. Other members of the family asleep in the room were awakened by her cries and

### MAN DIES OF COLD AFTER RESCUE.

Sheffield, Ala., January 6.—One fatality is reported here as a result of zero weather, the coldest in this region since the winter of 1918. Arthur Gamble, having survived a rat the home of Mark Morris, ten miles from the city, after being found almost frozen near the doorstep. Gamble was a resident of Tusculum and had been driven into the country by a taxi-cab driver and left near the Morris home.

### FIVE HURT SUNDAY IN AUTO SMASHUPS.

Struck down by an automobile in Luckie street, near Harris street, late Sunday night, J. A. Tomlin, 189 Luckie street, is in Grady hospital in a serious condition.

The car was driven by William Bernwell, of 30 Lynch avenue, who stopped and rendered every possible assistance to the injured man. Grady physicians say Tomlin's skull may be fractured, in addition to other injuries.

Police who investigated the accident reported it to be unavoidable. Witnesses claimed, it is said, that Tomlin stepped suddenly from the curb into the street, and directly in the path of the automobile.

Two Men Injured.

Another automobile accident Sunday endangered the lives of two men, road employees, both of whom escaped with only minor injuries, although the machine in which they were riding was demolished by a train. This happened at Delta Place and the Southern railroad.

The automobile was owned and driven by Night Yardmaster L. G. Lyons, of the Georgia railroad. Yardmaster J. M. Wallace, also of the Georgia railroad accompanied him.

Lyons and Wallace were en route to work when, as they crossed the railroad tracks at Delta Place, a switch engine of the Georgia road, pulling a string of cars, crashed into the sedan, overturning it.

Both suffered minor bruises and cuts but reported for duty. Lyons lives on Rogers avenue, in West End. Wallace resides at 25 South Delta Place.

### TWO CARS COLLIDE.

Mrs. J. F. Finley, 184 Marietta street, was severely shaken up and bruised when the automobile her husband was driving was struck Sunday afternoon by an auto driven by a negro, Frank Jones. Finley escaped unhurt, but the car was badly damaged. The accident occurred at Pryor and Trinity avenue. Investigation by the police led to the arrest of the negro under charges of reckless driving, his bond being fixed at \$500.

### CHATTANOOGA FREE OF DISASTERS.

Chattanooga, Tenn., January 6.—While the thermometer registered zero and four-tenths below zero this morning following the descent of the frigid wave Saturday, not a single case of distress was received by the charitable agencies of the city. Citizens as a general rule remained at home and the streets have been deserted since early Saturday night, but light attendance at the churches today being a noticeable incident of the coming of the first real wintry weather of the season.

### MERCURY RISES 50 DEGREES AT ST. PAUL.

St. Paul, Minn., January 6.—A rise in temperature in 36 hours of 50 degrees and upwards broke the severe cold spell in the northwest today. From a low of 27 below in St. Paul yesterday morning, the thermometer rose to 34 above here today.

Similar conditions prevailed elsewhere in the northwest.

### ALABAMA GIRL DIES OF BURNS.

Opelika, Ala., January 6.—Miss Mollie Harrison, daughter of the late General George F. Harrison, at one time commander-in-chief of the United Confederate Veterans, died here today of burns received early this morning when her gown caught fire from an open grate. ### THREE BURN TO DEATH IN PHILADELPHIA.

Philadelphia, January 6.—Three persons were burned to death in the late section today in fires believed to have been started by overheated stoves. The charred bodies of Mr. and Mrs. E. H. Harrington were found in the ruins of their home near Coatesville, Pa., where a fire had destroyed a restaurant building in Bethlehem. The lowest

### ALABAMA GIRL DIES OF BURNS.

Opelika, Ala., January 6.—Miss Mollie Harrison, daughter of the late General George F. Harrison, at one time commander-in-chief of the United Confederate Veterans, died here today of burns received early this morning when her gown caught fire from an open grate. Other members of the family asleep in the room were awakened by her cries and

### MAN DIES OF COLD AFTER RESCUE.

Sheffield, Ala., January 6.—One fatality is reported here as a result of zero weather, the coldest in this region since the winter of 1918. Arthur Gamble, having survived a rat the home of Mark Morris, ten miles from the city, after being found almost frozen near the doorstep. Gamble was a resident of Tusculum and had been driven into the country by a taxi-cab driver and left near the Morris home.

### FIVE HURT SUNDAY IN AUTO SMASHUPS.

Struck down by an automobile in Luckie street, near Harris street, late Sunday night, J. A. Tomlin, 189 Luckie street, is in Grady hospital in a serious condition.

The car was driven by William Bernwell, of 30 Lynch avenue, who stopped and rendered every possible assistance to the injured man. Grady physicians say Tomlin's skull may be fractured, in addition to other injuries.

Police who investigated the accident reported it to be unavoidable. Witnesses claimed, it is said, that Tomlin stepped suddenly from the curb into the street, and directly in the path of the automobile.

Two Men Injured.

Another automobile accident Sunday endangered the lives of two men, road employees, both of whom escaped with only minor injuries, although the machine in which they were riding was demolished by a train. This happened at Delta Place and the Southern railroad.

The automobile was owned and driven by Night Yardmaster L. G. Lyons, of the Georgia railroad. Yardmaster J. M. Wallace, also of the Georgia railroad accompanied him.

Lyons and Wallace were en route to work when, as they crossed the railroad tracks at Delta Place, a switch engine of the Georgia road, pulling a string of cars, crashed into the sedan, overturning it.

Both suffered minor bruises and cuts but reported for duty. Lyons lives on Rogers avenue, in West End. Wallace resides at 25 South Delta Place.

"ATLANTA Always Ahead," is Atlanta's Official Slogan. Keep it true, by always boosting your city.

## BLOSSER-WILLIAMS CO.

IS TOP-NOTCHER AMONG CITY PRINTING HOUSES

Atlanta is perhaps one of the largest commercial printing cities in the country—certainly the largest and most important in the southeastern states—and there is hardly any piece of printed matter, regardless of its size and importance, that can not be executed in first-class shape in this city. All over the city are scattered printing shops of low and high degree, and just at present practically all of them report that business is unusually good.

More and more large concerns of all kinds are realizing that attractive printed matter, whether it be from the humblest sort of a little business card to the highest and most expensive of colored catalogues, is one of the chief avenues to secure increased business. And it is because of this fact that the art of commercial printing is today on a higher plane and that those engaged in this line are kept busier than ever before.

Among the many splendid printing houses that Atlanta boasts none is more popular and more successful than the Blosser-Williams Co., located at 423 North Tryon street. This company has an elegantly equipped plant for practically any kind of commercial work, large or small, and some of the more elaborate and beautiful color work it turns out has attracted the attention of all those who admire good printing. The company employs between 30 and 40 skilled workmen in its composing and press rooms, and does not only a good share of printing for Atlanta but covers the entire southeast in its execution of motion picture modern presses and typesetting machines and with the latest faces of type, and with expert artists to work out designs and combinations in printing, this company is fast building for itself a reputation second to none in the south as general and commercial printers.

The officers of the Blosser-Williams company are R. Lee Webb, president; Theo. S. Smith, vice president, and Charles H. Higgins, secretary. These three gentlemen are not only experienced men in the printing business but are recognized as among Atlanta's successful young business men. They report that business is just now unusually good, with exceptionally bright outlook for the future.

Just as a sample of the kind of work the Blosser-Williams company turns out from its plant, and as showing the appreciation of one of its patrons, it might not be amiss to quote from a letter recently received from G. K. Fackler, secretary of the B. Mifflin Hood Brick company. The printing company recently printed a beautiful catalogue for the brick concern, entitled "Burned Clay Products." After complimenting the printing company on its production of the booklet, Mr. Fackler says: "Maybe we have been led to a deeper appreciation of its whole make-up not only from the fact that we have had direct requests from at least 45 states as well as British Columbia, Alberta, Ontario, Manitoba, Saskatchewan, Quebec, Cuba, England, New South Wales, Japan, New Zealand, and China, but from the fact that in many cases we have been accorded the courtesy of acknowledgments highly complimentary to the book as a complete and beautiful piece of work, and other similar remarks. . . . We have supplied copies of this catalogue for the libraries of London, England, and in Holland and France, as well as most of the larger and important cities of the United States. . . . While it is practically impossible to accurately check all instances of benefit from a catalogue . . . still we feel confident that the catalogue has helped spread the gospel of the permanency of 'Burned Clay Products' and has been a great factor in the 50 per cent increase in our quarterly floor sales this year, over that of last year. . . . We thoroughly believe in the ability of good printing to produce a 'susceptible atmosphere' for the favorable consideration of any product. Keep up the good work."

**QUITMAN FARMERS ADOPT NEW PROGRAM**  
Quitman, Ga., January 6.—(Special.)—Business men and farmers of the Morven district of the county held a truck growers' meeting Saturday afternoon at which a definite program for all agricultural interests was set out and adopted.

When the truckers began announcing the varieties of their produce surprise was expressed, as it was not generally known that cauliflower was being shipped in quantities. Tomatoes are also being shipped in carload lots, many of them going to the Florida market.

The meeting was addressed by County Agent Stratford, who declared that the county was coming into the enjoyment of a wonderful era of prosperity and there would be opportunity for all if the program was followed.

## TRUBLPRUF TIRES

ARE NOW OBTAINABLE AT ALL FORD DEALERS

A new and decidedly popular feature has been inaugurated by Walker Brothers, 75 Edgewood avenue, in the sale and distribution of the well-known Trublpruf tires. The firm has arranged it so that all people desiring to equip their Ford cars, either pleasure cars or trucks, with Trublpruf tires, can have it done promptly at any local Ford dealer's place without undue loss of time or trouble to the car owner. This arrangement has proven quite popular, and is resulting in the sale of a larger number of these wonderful tires than ever before.

Mr. Walker reports that Trublpruf tires are growing in favor rapidly, and that last year approximately \$150,000 worth of these tires were sold out of his Edgewood avenue place to such concerns as the Randall Brothers' Coal company, the Capital City Laundry, the Coppedge Dry Cleaning company, and a large number of other concerns, all of which report a splendid reduction in tire cost and a big improvement in tire service.

Porter E. Ramsey, formerly of Atlanta, and for many years superintendent of the Western Union for the southeastern division, resigned his position some time ago to become vice president of this company and its general manager of sales for the south. Under his supervision the distribution of these tires has increased wonderfully, and he has built up a large and splendid organization in this section of the United States.

The rapid spread of popularity of Trublpruf tires all over the world in the last few years has really been remarkable. In London, England, less than two years ago just a few tires were used, and they largely for experimental purposes. However, as soon as their practicability was established, this great city has become a large user and five car loads per month are going there for distribution, with trade increasing rapidly.

So impressed have the English been with the "Trublpruf" tires that less than a month ago a large delegation of English business men visited this country and attended a special meeting of the board of directors of the Lambert Tire & Rubber company, at Akron, O., makers of the tires, with a view to making arrangements for a wider distribution of these tires in England, and to build a factory over there. It was stated that unlimited capital could be provided to establish factories and branches at any and every important distribution point in the world. Information comes definitely from the Akron factory that out of 348 Ford dealers in Great Britain, 290 of them have stocked and are selling Trublpruf tires. This only shows what wise Ford dealers think of the possibilities of these tires.

The Lambert Tire & Rubber company has grown from a small unknown concern in a few years to a widely known company, with one of the largest and best equipped plants in the country. In Los Angeles last November a concern with large finances, formerly dealers in pneumatic tires, contracted to handle all Trublpruf tires to the extent of one-half million dollars' worth during the next four years in that city. The sales of these tires in England, according to Mr. Ramsey, have crossed the million dollar mark.

It is understood that the English delegation is anxious to build a factory to take care of all foreign trade. It claims to have a sales organization equipped to handle a large trade on a cash basis, and has applied for the agency for the entire world exceeding the United States of America and its possessions.

The Commercial Union Assurance company, limited, of London, through its agents, Hans & Haas, Fourth National Bank building, are issuing a duplicate of London Lloyd's Policy, insuring jewelry and furs, against all risks in all situations.

This means that the policyholder has complete coverage anywhere in the civilized world against articles of jewelry or furs being stolen, or the loss of said article, or the loss of a portion of setting of a piece of jewelry.

The Commercial Union Assurance company, limited, is the largest insurance corporation in Great Britain, and has been licensed by the state of Georgia for the transaction of business for over 40 years.

Details and full explanation will be furnished by Messrs. Hans & Haas, 1109 Fourth National Bank building upon application.

Any one possessing valuable jewels and furs should investigate.

# ALL THE DISSES GREAT FIELERS FOR ALL TIME

## Sisler, Bobby Wallace And Lajoie Discussed; Jimmy Collins Peerless

BY HANS WAGNER.

The main distinguishing difference between the grand all-American infield that I have selected and that of others is that I have put Napoleon Lajoie at second base instead of Eddie Collins. Also I have put Bobby Wallace at shortstop.

I have not done that without good reason. I would be willing to bet on my infield just as it stands—Sisler, Lajoie, Wallace and Jimmy Collins, with Eddie Collins as the extra man. I fail to see how any baseball man who has kept in touch with the game could name any man over George Sisler at first base.

George Sisler, in many ways, is one of the most remarkable ball players that ever lived. Incidentally he is one of the very few college boys who stepped in to take rank with the greatest of the game ever produced—the immortal, as fancy writers call them.

You will notice that the college men are very scarce on the teams selected by various authorities on the game. I never have heard of a college player who should be as great as a ball player as the man who got his schooling on the town lot. Probably the answer is the same as that to the old gag: "Why do white sheep eat more than black sheep?" The answer being, "because there are more of them."

Most college men are advised by their friends not to go into professional baseball. That probably explains why they are in such small numbers. They can do better at something else that they have been training and studying for.

Sisler is not only a great first baseman but he is just as good a pitcher. A good hitter like him cannot be wasted as a pitcher, for a pitcher is out of the batting order too much. Sisler is a wonderful natural hitter. He walked up to the plate with as much confidence the first time I ever saw him as he has done since. He can hit any kind of pitch and does it so naturally that he really makes batting look easy. His greater value is that he can hit into any field. Outfielders never know where to play for him.

Sisler is not an individual star but a great team worker. He has studied and likes to play the game just for the sport of it. He is very fast on the bases and, on top of that, when to start. He is a pretty hard for a pitcher to outguess Sisler.

But as a first baseman Sisler is particularly good in fielding bunt balls. His great arm is his strength. He is a hard on taking long throws to first. There are many first basemen who are wonderful at getting them over their heads but the boys who are sure shots in picking them out of the dirt are very rare.

Sisler is a real gentleman, always having consideration for his teammates as well as his opponents. He always keeps his head. Sisler is easy on umpires. I expect that he makes a wonderful manager. He is a natural leader.

I have considered the other great ones—Jiggs Dwyer, Fred Tenney, Tommy Tucker, George Kelley and all of them, but my choice must go to Sisler.

"Napoleon Lajoie is my pick for second base without a moment's hesitation. I'd rather have him on my club than any man I ever saw. There was never such a hard and sure hitter as Lajoie. He has more than was ever any better ballplayer. Lajoie was a man of powerful build and, though strong as an ox, he was graceful in every movement. He was a dancer. He swung through on a hit with as much rhythm as a professional golfer. In fielding ground balls he made them look easy. It was the ease with which he handled his muscles that made him last so long. Very few of the critics seem to have picked out the one great player who was a dancer. He drove a ball so far as a rule that the outfielders played very deep for him. That made it a cinch for a runner to score from him. This is also true of Babe Ruth and I have wondered why more experts have not pointed that out as a reason for his driving in so many runs.

Lajoie had a wonderful arm and was a sure shot in relaying throws from the outfield to the plate. His quickness and grace made him a star at completing or starting double plays. Lajoie was not one of the base runners but he was a fairly good one. At any rate he always knew what he was doing. He was steadily on the job, seldom getting injured.

Average for 18 years.

Lajoie had the same hard luck as Walter Johnson in never having had a chance to play in a world's series. Now when in addition to these things you recall that Lajoie had a batting average of .375 for eighteen years you can well understand why I have picked him over all comers. I'll admit that Eddie Collins runs the big Frenchman a close second, but he is a little more Collins in his utility infielder.

Bobby Wallace, of the old St. Louis club, is my pick for shortstop and the one thing that always has puzzled me is why Bobby never got more in the limelight. There was one of the greatest ball players in the world and the chances are that half the young fellows of today never knew him. He was such a perfect machine I reckon they just sort of considered Wallace as belonging at short and never thought about him as a shortstop. He was so generally good as never to be noticed.

Wallace was as sure a fielder and peeper to first as ever lived. He was never regarded as a heavy hitter but he was one of the surest men in a pinch that I have ever seen. To my mind Bobby Wallace was a shortstop who never got more in the limelight or on coming in for slow hit grounders. He had studied every batter so that he knew where

they would hit certain pitches and he would be right on top of the ball. He was so perfect in this that a lot of folks thought him born under a lucky star. It wasn't luck at all. He had figured it out that way.

Wallace could cover as much ground either to his right or left as anybody—and probably more. I used to wish that I could do some of the tricks that Bobby did. He was a smart base runner and good team worker. Everybody from the manager to the line boy liked him and, consequently, he was easy to handle. Even the umpires liked him.

Wallace Dreamed Baseball.

Wallace was one of those fellows who talked and thought baseball all the time. It was his fun as well as his life work. Yes, I have taken into consideration his lack of hitting, and still I select him as the grand all-American shortstop of all time.

There is not much to discuss Jimmy Collins. Every all-American team I have seen picked for the past few years has had him. He couldn't get away from it, that's all. There has never been another Jimmy Collins. Others have come close but none have been as good as Jimmy. Jimmy set the model in playing third base. He invented most of the present methods of third base play.

Jimmy was playing third base for the old Orioles started the hunting plays. In a month he had solved this new style. He could beat any man in the world in starting with the bat and being on top of a bunt before it had gone thirty feet. He got to where he could scoop these bunts up with his hand and throw them strictly with the same motion. On account of his deadly defense the old timers thought up the idea of hunting toward first base and drawing the first baseman off the bag.

Collins covered a lot of ground and with his wonderful arm could get a man from almost anywhere. As I say, he was the first player to discover the proper method of handling a bunt and every third baseman to this day copies him. Not one has ever improved on his system.

Collins was a hard hitter and a great base runner. He belongs to what I have called the aggressive type. He was a hard worker, a business and laid off the umpires. Jimmy was also game. No base runner ever chased him away from the bag. The outfielder, one of the Collinses was the model third baseman. They are still trying to copy him, but few have succeeded.

Tomorrow—The Catchers Who Head the List.

## Hoppe Will Meet Cochran Again

Boston, January 6.—Willie Hoppe, 182 halibut champion, will arrive in Boston Monday to defend his championship in a 1,500-point match against Walter Cochran, Thursday, Friday and Saturday nights.

Hoppe is coming here Monday to put on the finishing touches in his practice campaign. Cochran has decided to stop off in Providence, R. I., to play two exhibition games and will not arrive here until Tuesday.

The match will be a best of five, with 500 points of play each night. If Hoppe is victorious he will meet Jake Schaefer later in the month in a championship match at Chicago.

## Taylor To Lead Navy Team, '24

Annapolis, Md., January 6.—Midshipman Edmund B. Taylor, Lima, Ohio, was elected captain of the 1924 football team today. Taylor was named today upon the arrival of the Midshipmen from Pasadena, where they met the University of Washington on New Year's day. The election was held during the return trip. The navy warriors were given a warm welcome by midshipman comrades and academy officers.

## Georgia Movies To Be Purified By Mrs. Werlein

New Orleans, La., January 6.—Appointment by Will Hays, head of the Motion Picture Production Code, Mrs. Elizabeth Werlein, of New Orleans, to revolutionize the motion picture theaters of the states of Georgia, Louisiana, Mississippi, Alabama and Texas into community centers for the public good and to aid audiences to an appreciation of better pictures, was announced today.

Mrs. Werlein, writer, golfer, big game hunter, globe trotter, society woman and leader of a large group in the art colony here, has been touring the larger cities of the country studying the work she is to undertake and prior to returning to her home a few days ago she had spent several weeks in the office of Mr. Hays in New York city.

Mrs. Werlein will bear the title of director of public relations and education. Her duties as outlined in a statement she issued today include the leading of an educational movement to raise the standard of motion pictures. She will direct a motion picture theater will be changed by day into community centers, schools, clubs, and even churches. She will promote and foster the idea of visual education by inviting classes to leave school at intervals to visit the theaters to witness picturization of courses of study.

Because the municipal authorities would not put free telephones in their homes, the entire fire brigade of Waihi, N. Z., recently resigned in a body.

South Americans often serve as many as six different kinds of meats at a single meal.

## CARDINALS HAVE BIG LIST

St. Louis, January 5.—Twenty-two exhibition games, including two pre-season contests with the local American league entry, have been scheduled by the St. Louis Cardinals. Manager Branch Rickey announced tonight. The team will open training quarters at Bradenton, Fla., March 3. It was stated. The schedule follows:

March 11, Brooklyn at Bradenton; March 12, Boston Nationals at Bradenton; Milwaukee at Palmto; March 18, Chicago Americans at Bradenton; March 20, Philadelphia Nationals at Bradenton; March 22, Washington Americans at Tampa; March 24, Philadelphia Nationals at Leesburg; March 25, Chicago Nationals at Winter Haven; March 26, Brooklyn at Clearwater; March 27, Washington at Bradenton; March 28, Boston Nationals at St. Petersburg; March 31, Milwaukee at Palmto; April 1, Milwaukee at Bradenton; April 4, Milwaukee at Savannah, Ga.; April 9, Atlanta at Atlanta; April 10, Nashville at Nashville; April 12 and 13, St. Louis Americans at St. Louis.

## Record Cracked By "The Hutch"

Miami, Fla., January 6.—Jack Hutchison and his putter stalked through the pitfalls of the Miami Country Club course at sensational style this afternoon and when Jack had finished exceeding his quota of 35-foot putts, he had traversed the eighteen holes in 57 strokes, equalling the course record.

Three times he held putts from distances between 20 and 40 feet. Virtually none of his strokes on the green was dead to the cup and with a little more power behind several shots he would have smashed the record by an unbelievable number of strokes.

Jack, paired with the rugged veteran, Mike Brady, who is the course professional, soundly clumped the course secretary, one of the Florida state amateur champions, Lee Chase, Buffalo star and holder of many Miami championships, and Dan Healy, course secretary.

The amateurs played golf, had a best ball of 70, two under par, completed from their trip of 70's but were of no avail when Jack Hutchison was holding 35-foot putts to collect half a dozen birdies. He could have beaten the amateur and Brady together but he consented to accept Brady's help twice so the best ball of the pros was 65.

## "Shoeless" Joe Suing the Sox

Chicago, January 6.—Joe Jackson, outfielder for the White Sox before the stormy days of 1919, will appear in Milwaukee circuit court January 10 and 14, respectively, to answer to the Chicago American league owners. Jackson charges the White Sox with failure to keep their contract with him.

The suit will be followed by others to be pushed by Happy Felsch and Charles Risberg, provided Jackson is successful. The case involves one of the seven men ousted from organized baseball after the 1919 world series scandal, claims no proof of game-playing was a breach in substantiated charges against him.

## Congress Halts As Committees Dig Into Bills

Washington, January 6.—Taxes, prohibition and recognition of the Russian soviet government will be the subjects of discussion tomorrow in the house and senate. There will be little affirmative action by either house, but committee activity on important legislation that is to come will be increased.

## Georgia Movies To Be Purified By Mrs. Werlein

New Orleans, La., January 6.—Appointment by Will Hays, head of the Motion Picture Production Code, Mrs. Elizabeth Werlein, of New Orleans, to revolutionize the motion picture theaters of the states of Georgia, Louisiana, Mississippi, Alabama and Texas into community centers for the public good and to aid audiences to an appreciation of better pictures, was announced today.

Mrs. Werlein, writer, golfer, big game hunter, globe trotter, society woman and leader of a large group in the art colony here, has been touring the larger cities of the country studying the work she is to undertake and prior to returning to her home a few days ago she had spent several weeks in the office of Mr. Hays in New York city.

Mrs. Werlein will bear the title of director of public relations and education. Her duties as outlined in a statement she issued today include the leading of an educational movement to raise the standard of motion pictures. She will direct a motion picture theater will be changed by day into community centers, schools, clubs, and even churches. She will promote and foster the idea of visual education by inviting classes to leave school at intervals to visit the theaters to witness picturization of courses of study.

Because the municipal authorities would not put free telephones in their homes, the entire fire brigade of Waihi, N. Z., recently resigned in a body.

South Americans often serve as many as six different kinds of meats at a single meal.

## A PIECE FOR THE PAPER

Firecrackers and Crows.

Sitting here in the cool of the evening, lamenting the fact that Sundays are necessarily so drab and serene, wondering how a man under present conditions can arrange to carry out the Biblical injunction and earn his bread by the sweat of his brow, cogitating on what to write for the paper, if any—all tendencies toward thinking, however puny and under-nourished, were suddenly taken away from me by one fell swoop.

Lloyd Wilhoit, a contemporary (follow copy) of mine in a burst of originality, placed a firecracker under my chair and ignited it. The firecracker, after due deliberation, achieved its purpose in life—all without my knowledge until the smelling salts had been administered and "Pop" Gleason had rushed down to get a pulmotor. "Pop" hasn't come back yet, but I'm going to take a swig of the pulmotor when he does. I still need it.

From this day on I'll admire Wilhoit for that. It must take the divine fire of genius we hear so much about to make a man think up things like that. And for the remainder of his life he can think about his shattered nerves and say, "There's what I did, in a moment of reckless abandon. I aged him before his time. See him quiver and shake a little little brain work on my part did that. It was pretty snappy if I do say it."

Personally, I hope some policeman will read this in a moment of reckless abandon and come up and arrest the offender, his royal robes of city editorial authority and all.

Have you ever been alone in a crowd? The world's not so bad after all. Just as we discovered that rumination on Lloyd Wilhoit's parlor tricks wouldn't fill a column, in an important government communication entitled "Crows Not So Black as They are Painted." It contains some valuable information.

Are the other boys and girls more popular than you? Why didn't he call again? What's wrong with this picture? Bear with me a minute or two, readers, both of you, and I'll give you a tip that will make you the life of any party. And it won't cost you a cent—the government gave it to me instead of a bonus.

When you go calling, and things get dull, you can say, for instance: "Under-emphasis on peculiar local conditions, however, together with a lack of distinction between the common crow and the fish crow and a faulty interpretation of the evidence at hand, has conveyed a grossly exaggerated and wholly erroneous idea of the predatory habits of the crow, according to the Biological Survey, United States Department of Agriculture."

Then someone will say, "Please pass the cabbage," and you can come back at them with: "On the other hand, a careful study of the economic status of the crow demonstrates that over much of its range the bird probably does much good as a pest exterminator, and under some conditions its usefulness is pronounced." (You can prove that last statement by letting a crow's arteries harden, then naming a popular whisky after him.)

It seems that we have done the crow a gross injustice, and if there is anything we can do to make amends, we stand ready to go to it. But for the popularity class, we'd like to say that a full discussion on the crow can be found in Farmer's Bulletin 1102, The Crow in Its Relation to Agriculture, obtainable on application to the United States Department of Agriculture, Washington, D. C.

They've evidently held a caucus on the proposition.

## STRIBLING HAS BEEN BOOKED FOR TWO FIGHTS IN FLORIDA

Macon, Ga., January 6.—(Special.)—Young Stribling, claimant to the light-heavyweight championship of the world, will begin training Monday for two bouts that he has booked on January 10 and 14, respectively, at Macon. Stribling will meet Eddie Strub in Jacksonville and Mike Nester, in Miami, it was announced by the Stribling camp.

Since returning from New Jersey Strub has been devoting the greater part of his time to playing basketball with the Macon Blues. However, he will resume his work with gloves, training with his chief sparring partner, Bill Clemens, a heavyweight from Pennsylvania, who has been furnishing the school boy boxer friendly opposition for the past month.

Stribling is taking on weight and his followers are predicting that another month or two will bring him into the light-heavy class. It has not yet been announced who will be his opponent in Atlanta where he is soon to appear after an absence of several months. It is rumored that promoters there have attempted to arrange a bout between him and Joe Lohman, but it is not believed that such a bout will be arranged as Lohman is a heavyweight and Stribling would have to give away too many pounds.

## At the End of a Long, Long Trail

DAZZY VANCE

BY NORMAN E. BROWN.

Dizzy Vance has reached the end of the long, long trail to baseball success. Behind him stream six long years—years of grappling against a handicap that has ended prematurely the career of hundreds of pitchers.

In five of those six years he should have taken his place in the baseball pantheon as a star. He gave every indication of developing into a wonder under a year or two. But three years rolled by. At times he showed flashes. But his arm troubled him. A stretch of brilliant pitching would be halted by a "kink" in his arm.

Specialists by the score failed to remedy the ailment. He slipped from the big show and joined the St. Joe club in the Western circuit. There the trouble continued. Then a doctor in Hastings, Neb., told Vance that the only thing that would cure the arm would be good care and time.

Vance took his word. He started "nursing" the arm. He cared for it like a baby. Pitched only when it felt alright. From St. Joe he went to Columbus. From Columbus to Toledo, then to Memphis. Then on to St. Louis and back to Memphis.

And then his arm began to show improvement. In 1921 he moved to New Orleans.

Pitching on a once-in-five days schedule there he hit his old stride. The Brooklyn Dodgers grabbed him. He had fair success in 1922 and then last spring said, "I'm ready."

He proved he was. He led the league in strikeouts last year and played an important part in the opposition the Dodgers gave the Giants in the National league.

It was a long road back but Dizzy's there at last. And he still has several years ahead of him as he is still young as pitchers go.

## FIRPO WAVES THE RED RAG

Buenos Aires, January 6.—After the next Dempsey-Firpo fight it will be Jack who will sport alibis, and not Luis Angel. That this is his devout opinion, Firpo has taken little pains to conceal in an interview here.

"Some persons say that I am not confident that my return fight with Dempsey will have a different outcome," Firpo declared. "They are all wrong, and do me an injustice, and besides, they don't know what they are talking about."

"I will enter the ring with ten times as much confidence as I did the day of the first fight," he continued. "I was in poor shape then, and knew it. Next time I will be in excellent condition, and the fight will have a different ending."

Firpo's sassy Sabbath deft was the eleventh in a series of little flappings against him, such as hitting Firpo by a naturally quick temper, heritage of his Castilian lineage. But to be knocked into Dreamland by a drowsy, half-conscious hobo of an American, that was too much.

Dempsey's claim was that he had been partly anesthetized by a lucky punch from the South American, and that he was punching out of sheer instinct when he subdued Firpo. More over, Jack intimated he was so groggy that he couldn't possibly have pulled any of the slicker strategy charged against him, such as hitting Firpo before he rose to his feet, or swatting him while Luis was taking a peek at the referee. At least, not conscious, Jack insisted.

"Ridiculous," said Firpo. "I was watching him, and had him spotted even during the knockout. He didn't hit me, he punished me. I took, and his statement that he fought instinctively is a mere pretext, an alibi to prove that he forgot the rules and went right to the corner when I was down."

"Before the fight I was convinced it wouldn't last more than two rounds, because I tended to put all my force into my first blows. Well, you saw what happened. Next time I will be on the alert, and things will end differently."

## Bernstein Meets Sammy Mandell

New York, January 6.—Jack Bernstein, of Yonkers, no longer resplendent as junior lightweight champion, but still swinging a wicked left hook, will tackle Handsome Sammy Mandell, of Rockford, Ill., sheik of the sluggers, at Madison Square Garden Friday, in the same ring where the judges scissored his title and sewed it onto Johnny Dundee's shirt.

Elsewhere the week will find minor luminaries thumping each other. Abe Goldstein, bantam champ of New York state, will defend his title against Wilbur Cohen at the Pioneer club Tuesday, in 10 rounds. Joe Starn, a lightweight with many admirers in Pittsburgh, will take on Pete August at the Brooklyn rink arena for 12 rounds Thursday.

## Edgren Makes Comments On Anti-Football Wave Recently Turned Loose

BY ROBERT EDGREN.

"Circle," the university of Chicago literary magazine, prints an article by the editor, Robert Tolak, in which he roasts college football and says that football is "a menace to cultural education."

He claims that football players neglect their studies, "sleeping, eating, drinking and talking football," and paying no attention to anything else. He wants football "put back into its proper groove," and says that "the influence of general physical training has been lost in the hectic rush and din of intercollegiate competition."

Probably football doesn't greatly encourage the cultural arts of verse writing and painting pink panes on pretty porcelain, but it has its good points as a character builder. In fact, I would wonder if college men don't get as much benefit from their sports as from their studies. A few weeks ago I went to San Francisco to attend, for the first time in many years, the annual dinner of the old college class, University of California, '07.

That was a great athletic class, and we had many football players and other athletes whose fame hadn't dimmed by the passing of years. Forty men of the old class of about 150 were at the dinner.

They asked me to check up on the old-time football players and athletes. Every single one of them was a notably successful man. There were famous lawyers, builders, mining men and scientists and inventors, writers, doctors, business men. They all retain an active interest in sport.

And it had kept them young. Some had lost their football hang, but there wasn't a fat man in the lot. And looking back I remember clearly that in my day the football men will usually be the best of the class. These things don't change much. Football men today average very well in their classes. All colleges worth sending their sons to, respect the value of sports, especially from athletes. I remember many great college players who were notable students, east and west.

"Cultural education" isn't the only thing a boy goes to college for. The associations he forms there are useful all through his life, and a young man who has been a college athlete makes a reputation that certainly does him no harm when his college days are over.

As to the "influence of general physical training" being lost through college sports, that's silly. It's the college that keeps college men interested in sports and training.

## J. M'GRAW WILL DO BATTLE WITH HIS OWN GRADUATES

New York, January 6.—(United News.)—Next season John McGraw will do battle with teams managed by "Cultural education" and graduates in the National league.

With Dave Bancroft piloting the Braves, Art Fletcher the Phillies, Wilbert Robinson the Dodgers, Bill McKechnie the Pirates and Pat Moran the Reds, McGraw's team appears to have become the West Point of the field marshals of the older circuit.

An interesting fact to be that between two former Giant shortstops, Bancroft at Boston and Fletcher at Philadelphia, to dodge the tail-end stigma. Both are faced by hard jobs.

## WARE COUNTY PLANS AGRICULTURAL FAIR

Waycross, Ga., January 6.—(Special.)—Committee from the Waycross and Ware County Chamber of Commerce are busily at work at the present time preparing for the Ware county agricultural fair for 1924.

## MT. LEBANON CHAPTER ELECTS NEW OFFICERS

The Mount Lebanon chapter, No. 161, Royal Arch Masons, elected officers for the year 1924 at the final meeting of 1923. The newly elected officers were installed by Excellent Companion W. A. Sims, grand secretary of the grand chapter of Georgia, R. A. M. Past High Priest Ralph J. Wynne assisted in the installation service. The following officers were elected: J. K. Butler, high priest; Dr. Benjamin O. Holtzendorf, king; Glenn W. Wood, scribe; Harry Magbee, captain; the host; S. D. Mullin, principal sojourner; W. L. Martin, royal arch captain; L. A. Rogers, M. 3rd V.; Dr. W. B. Lingo, M. 2nd V.; O. T. Puckett, M. 1st V.; W. O. Brooks, treasurer; W. T. Morris, secretary, and R. M. Williams, sentinel. A new feature that is being put into operation in Mount Lebanon chapter is the S. O. K. call that takes place at 8:30 o'clock in the chapter rooms on the first and third Tuesday nights of each month. This is one of the most interesting features ever held in the interest of attendance of the chapter.

## MINISTERS TO CONFER AT SAVANNAH MEET

Savannah, Ga., January 6.—(Special.)—Rev. H. Hobart Barber, rector of the Church of the Good Shepherd, Augusta, and Rev. John O. Walker, rector of St. Paul's church, Albany, and Rev. Charles Lee, rector of St. Paul's church, Macon, will be in Savannah January 13 for special sessions of the National league of heads of social service departments of the church. Dr. Lee will speak on the conditions in the Near East.

## Henry Reddick Dead.

Sylvania, Ga., January 6.—(Special.)—Henry Reddick, one of the best known citizens of Sylvania, died at his home near Friendship church in this county last night, after a short illness. The deceased was about 70 years of age. He is survived by his widow and two children, Jack C. Reddick, of Sylvania, and Mrs. J. E. Mulligan, of this county.

**Piles Cured WITHOUT SURGERY**

An instructive book has been published by Dr. T. W. Hughes, the noted rectal specialist. This book tells how to cure piles, hemorrhoids, and other rectal troubles, without surgery. It is a complete guide to the treatment of these conditions, and is a must for every sufferer. The book is free to persons afflicted with piles. Examination and consultation free.

## News of Society and Woman's Work

### HEARTS AFIRE

BY MAY CHRISTIE

The Brilliant Novelist of Modern Society.

**INSTALLMENT 13**  
**Virginia Takes Stock.**  
Indolent and self-indulgent in all other ways, Virginia was a stoic when it came to suffering for beauty's sake.

For instance—now—she would have given anything to have tumbled into bed, and slumbered.

But there were many little rites that she must go through, first. Before ringing for Annette, her maid, she must perform those boring exercises that caused her figure to maintain its girlish slenderness. (Maddening to think of the Page club free for years of all such tiresome tricks!)

Little did Virginia know that at the present moment, that same "club" was weeping her heart out for the very man Virginia had snubbed!

The latter, then, arrayed in fascinating pink silk pajamas, stood before the long pier-glass, and proceeded with the tiresome bending backward, sideways, etc., that was calculated to foster slim grace.

She must touch her toes twelve times in succession, too.

And there was the strenuous "windmill" exercise, and a whole host of others to be gone through.

"Virginia was encouraged in the good work by acquaintance with a certain celebrated moving picture star, famous for her beauty and evile figure. They had met on boardship on the Atlantic crossing, and a certain vanity in both had drawn them, temporarily, to each other.

The cinema queen, known the wide world over, had been the amazing product of self-discipline. Virginia had marveled at the physical rigors she endured.

There was the meagre breakfast of hot water, varied occasionally by a glass of orange juice, and a scrap of dry, unuttered toast. Eggs and bacon were anathema.

Following on that, there was the four-mile walk around the deck, another glass of hot water, and an hour's vigorous session with the trainer in the ship's gymnasium.

Seated on that uncomfortable contrivance, the "electric chair" (which was a cross-section of the real animal, fashioned of wood and leather, and complete with saddle!) the film star would press the button marked "rot" and career for many figurative miles to the improvement of her physique. "Canter" and "gallop" buttons were in use, too. Indeed, one day Virginia, fired by the girl's example, had mounted the electric steed and mistakenly had pressed all three together, so that the unsteady animal had actually thrown her off!

After a luncheon that would have been an insult to a robin, the film star had reclined for a couple of hours in the ship's torture-chamber, known as the electric bath. Here she lost pounds in weight under the violent purple lights.

And not content with that alone, she would totter to the Russian and the Turkish lethal chambers, a dim shape in the steam that swirled about her, and endure further woes, at least of which was the pummeling of the masseuse, who concluded matters by playing a high-powered hose upon her at long distance, just when a fireman seeks to overcome a conflagration.

But the flaming urge for youth and beauty could not be extinguished in the film star's breast. She was well past forty . . . (nearly fifty, if the awful truth were told!)

But when she entertained at tea in the Royal suite five thousand dollars for the six day's trip, that suite had cost her! But don't forget she was a queen in the "movie" world, and queens always hire the Royal suite, (as any shipping clerk will tell you!) Miss Goldlocks wasn't a day over twenty-nine, unless fate was served in the sun-patler and the light struck her at the wrong angle.

But oh! at night! That was her triumph! Complete with adoring husband trailing possessively behind her, and with the admiring eyes of

all the millionaires and millionairesses upon her, she would creep into the dining saloon a half hour late for dinner, clad in a wondrous Paris gown . . . and at her entry, the clatter of knives and forks would cease, forks and glasses would be suspended in mid-air, and down to the humblest steward every eye would gleam, and every mouth would gape.

For the long, strenuous day was closing, and the film queen was a radiant, lovely, laughing Twenty . . .

"A mere girl!"  
"So beautiful!"  
"Mr. dear, did you ever see such shoulders?"  
"Such hair! Such eyes!"  
"A figure like a boy's—a Greek boy!"

So it would go.  
Virginia Dale was saying to herself:

"She's years and years older than me, if they only knew it! But they all adore her! Every man Jack of them! And every woman envies her! Then why not I?"

After that, virgin she had hired Annette. Annette had been the film star's maid. "She was proving quite a treasure, in her way."

"Turn on my bath, Annette, and put in the reducing salts—about three pounds of them. While the water's running, give me a face-massage. Did you get the new arrangement? And did the cook send up the ice?"

The paragon inclined her head. "Yes, madam. Everything is ready."

Virginia reclined in a low chair and closed her eyes, while Annette's clever fingers "manipulated" the muscles of her face. Soothing it felt. This was one part of her beauty regime that she liked.

Her thoughts drifted off to pleasant pastures. Tomorrow she would seek out Peter Armstrong. Tomorrow she would further matters in that quarter. Mr. Armstrong liked her. She was attracted to her. She had great confidence in her own powers.

Unless—unless—that Page child should get her cap at him . . . Hadn't he looked at the Page child with a curious expression in his handsome eyes?

But—was nonsense? She—Virginia Dale—was a thousand times prettier, and more subtle. She could capture any man she fancied!

In Tomorrow's instalment, Traymore makes Amends.

### Will Entertain Club Officers At Tea on Tuesday Afternoon

Mrs. Murray Howard, who will entertain the officers, chairman and co-chairmen of the West End Woman's Club Tuesday afternoon. Mrs. Howard is not only president of the club, but with Mrs. H. A. Watts, is the originator and organizer.

Mrs. Murray Howard, president of Horace Presson, Mrs. H. N. Fickett, Jr., Mrs. J. P. Wilhoit, Mrs. H. H. Turner, Mrs. R. E. L. Tolbert, Mrs. J. W. Hayden, Mrs. Otis Witherspoon, Mrs. G. H. Howard, Mrs. Charles Whitehead, Mrs. T. S. Seils, Mrs. R. H. O'Kelley, Mrs. J. C. McCloskey, Mrs. C. C. Shipley, Mrs. W. M. McCallie, Jr., Mrs. J. R. Hornum, Mrs. T. W. Dealy, Mrs. George Dunbar, Mrs. A. L. Smith, Mrs. George Singer, Mrs. J. A. Murphy, Mrs. W. A. Byers, Mrs. J. C. Landers, Mrs. S. E. Strickland, Mrs. T. A. Dyer, Mrs. A. Hollingsworth, Mrs. H. L. Wills, Mrs. Berry Hinton, Mrs. W. W. Kilpatrick, Mrs. Frederic Rice, Mrs. J. W. Moxley, Mrs. George Congdon.

### DR. DEAN ATKINSON, NOTED GEORGIAN, IS DEAD AT HOME

Brunswick, Ga., January 6.—(Special.)—Dr. Dean D. Atkinson, one of Brunswick's leading citizens and one of the best known dentists in the south, died at his home here suddenly at an early hour this morning, as the result of heart trouble.

Dr. Atkinson had been only slightly indisposed for the past few days, and his death came unexpectedly. A turn for the worse came late last night and he died before members of the family realized that he was seriously ill.

He was president of the Georgia Dental society for many years and was chairman of the Georgia board of dental examiners. He was one of the leading members of the National Association of Dentists, having served as president of that organization during 1922. He was a former mayor of Brunswick and occupied a prominent place in social, business and religious circles of the city.

Surviving him are his widow, six children, Judge David S. Atkinson, representative in the house from Chatham county; Dr. Spencer Atkinson, of Atlanta; Dr. Frank Atkinson and Dr. T. Atkinson, Jr., of Brunswick; Mrs. Fred Allen, of Orlando, Fla., and Mrs. A. D. Little, of Thomasville; two sisters, Mrs. G. W. Blanton, of Brunswick, and Mrs. T. B. Irwin, of Marietta; and two brothers, Judge Sam C. Atkinson, of the Georgia supreme court, and B. Atkinson, of Camden county.

Funeral services will be held from the residence at 3 o'clock this afternoon. Rev. T. B. Fisher officiating. Interment will be in Decatur, Ga., Avtry & Lowndes in charge.

### Rev. Wright Begins Ministry of Historic Savannah Church

Savannah, Ga., January 6.—(Special.)—Historic old Christ church, where Wesley and Whitfield served, a colonial Georgia days and which has been without a rector for a year, heard for the first time her new priest, the Rev. David Cady Wright, D. D., who preached today.

He came from St. Paul's Episcopal church, Louisville, where he served for 13 years. The annual meeting of the Christ church congregation is to be held January 14.

### Planning To Build \$2,000,000 Pulp Mill In Savannah Soon

Savannah, Ga., January 6.—(Special.)—Before February 1 a definite announcement will be made as to the complete plans of a great paper pulp mill. Expert engineers are here today, having just completed a survey of the project and expressing favorable impressions. The engineers here are Joseph C. Wallace, of the J. H. Walker & Company firm, New York, and E. Greenwood and A. V. Waern, also of New York.

### QUITMAN POSTOFFICE DOES BIG BUSINESS

Quitman, Ga., January 6.—(Special.)—Postmaster A. S. Perry has announced that the Quitman office shows a gain of 30.74 per cent in business in 1923 as compared with 1922 and less than 1 per cent increase in administration cost.

The annual report shows that the business of 1923 amounted to \$27,233.64 as compared with \$20,821.94 in 1922. The cost of operation for 1923 was \$18,025.37 as compared with \$17,914.48 the year before.

In his statement he expresses appreciation to the employees of the office and wishes the general public a happy new year.

### Miss Alice Stewart Dead.

Lions, Ga., January 6.—(Special.)—Funeral services were conducted here Saturday afternoon for Miss Alice Stewart, whose remains were brought here from Fitzgerald this morning.

She is survived by her mother, Mrs. Stewart, and a brother, Mr. John Stewart, of Lyons.

### Beauty Chats

BY EDNA KENT FORBES

#### THE HOUSEWORKER'S HANDS.

The housewife should take to heart that good old saying about the value of an ounce of prevention and a pound of cure. It will take her an hour to undo the damage done by a day of housework. It will take her no time at all to pull on gloves before setting to work. At first they may make her feel awkward and unable to work with her usual speed, but once she is used to them they will not impede her at all.

Very old, loose, leather gloves can be used for all the work that washing and scrubbing, or old cotton gloves will do as well. Rubber gloves, if pulled over the hands when they must be kept in water, should be of good quality as possible, with a gauntlet long enough to come well up over the wrist. Even the best quality ones are not expensive, and are worth a hundred times what you pay for them.

I have a friend whose hands are always admired. She does all her own household and laundry work, and though she is 50 her hands are those of a woman of 30, and so well cared for no one would dream the amount of work she does. She does all her dishwashing, and all such things as scrubbing floors and painting, or the like, by using the rubber gloves and finger nails, with stout rubber gloves on.

She uses long handled dish mops and long handled floor mops, not only to save the gloves, but also to save bending her back; she even has a scrubbing brush on a long handle which saves much stooping and reaching. Three times a week she coats her hands with cold cream before putting on the rubber gloves and gives them a beauty treatment while she works.

For what she calls the dry and dirty work she wears loose black cotton gloves; that is, for dusting and sweeping and such jobs. The only household tasks that are hard on the hands where she cannot protect them with gloves are the chopping up of vegetables which stain the skin and the weekly laundry work. But she rubs her hands with lard when she is done with these tasks.

Sally—I will be glad to mail you the formula for a hair tonic that will correct this condition. In the meantime massage the scalp vigorously every day until the hair is increased in quantity. Lemon juice or buttermilk will lighten the freckles which all that is necessary at this season of the year.

Betty J.—It is possible that your skin has not recovered from its attack of blackheads. If you could have an occasional treatment at a beauty parlor where the work is strictly on a health basis, you might hasten the improvement. When doing this for yourself, always close the pores after cleansing skin by using plenty of very cold water over the face and throat. A mild astringent should be used also several times each week.

Tomorrow—Answered Letters.

All inquiries addressed to Miss Forbes in care of the "Beauty Chats" department will be answered in these columns in the next issue. This requires considerable time, however, owing to the great number received. So if a personal or quicker reply is desired, a stamped and self-addressed envelope must be enclosed with the question.—The Editor.

### Jane Hedden Hat Pattern

Anyone who can sew can make hats by utilizing our home pattern service. Women who never dreamed of making hats a year ago now have beautifully made hats which match dresses and coats in color and design. These hats fit the head as ready-made hats seldom do. They are light in weight and correct in line and workmanship.

As in many other things, belief in one's self is one-half of its accomplishment. Certainly no one can do what they are afraid to try to do. Personally I think it is one of our readers because of our hat pattern. Girls are wearing beautiful new hats who would be wearing last year's old ones had they not made the new ones themselves.

No. 8-759.

Bands of pleating are used to make a hat which is different. Taffeta or taffeta and straw cloth may be used for the crown and brim. Taffeta makes the pleating. A distinctly new crown has narrow bands of pleating to outline a saddle top section. For the debutante nothing can be smarter than the lines of this design. Canolone, biters, velvet, jade and almond green, beige and rust are a few of the suitable colors. The effect is such that the hat may be worn for dressy sport wear, street, or informal dress occasions.

MATERIAL REQUIRED.

One-half yard elastic net or buckram, 4 yards brace wire, 1 cap lining, 1 soft pressed crown, 3-4 yard of 30-inch bias taffeta, 1-2 yard 18-inch straw cloth for brim edge and top crown.

HAT PATTERN ORDER.

This order, with 25 cents will bring you pattern and working instructions for making any one of the hats illustrated above. If more than one pattern is desired include 25 cents for each pattern. Fill in name and address—enclose stamps, coin or postal note. Address your order:

### Entertaining for the Debutante

BY JULIA HOYT.

The demands made today on the mother of a debutante are not nearly so great as in the past. Entertaining has become less formal and less of an obligation. In fact, some of the most individually popular debutantes are girls who have not given any large formal party at all. Naturally, however, it is to a girl's advantage to be a graceful hostess, as well as a charming guest.

Nevertheless, the girl who attends parties, but does not herself entertain is known as a debutante just as is her richer sister who can give elaborate parties. She can have equally good a time. If it is at all possible, however, most mothers want to do something in the form of entertaining in honor of their daughter's debut. There is no set rule as to what form this entertainment should take.

In days gone by the debutante often was given a formal tea by her mother or one of her immediate family. Followed by an evening party of some kind. The tea was given primarily to afford an opportunity for the girl to meet the older generation—her mother's friends and acquaintances. The evening entertainment was rather closely confined to the younger generation—debutantes and girls who had been out a year or two. Only one or two older couples, intimate friends of the parents, were invited to give their support.

Personally I think it is an excellent change, provided that the debutante really mixes with those of every age. Coming out into the world should mean that we are prepared to meet people of all ages and personalities, and are no longer forced to confine ourselves to girls and boys of our own age.

When a mother is planning her entertainments for her daughter, she should consult the daughter's preference as to what form they shall take. Some people prefer one large ball, others already gone to college, to a number of grown-up parties, and probably has quite a large circle of friends older than herself. And the parents are in comparison younger than were parents in days gone by. They and their friends probably dance as well as the best of us.

## Features Which Will Interest Every Woman

### HOUSEHOLD SUGGESTIONS

Gathers the Dust.

A plain broom will just scatter the dust on linoleum, but a slightly moistened square of flannel tied over the broom will take up an amazing amount of dust.

To Wring Hot Cloths.

When hot cloths are being used for relief of pain, they can be wrung out easily without burning the fingers by laying them in a large heavy towel and twisting the ends of the towel in opposite directions.

A Conservator of Heat.

## FINANCIAL

MONEY TO LOAN

TAKE NOTICE

We have moved our offices and changed

our name, which may be confusing to

some of our old customers. Those who

have been dealing with us

Society Loan Company

FOR the past eight years we have found

the same old force in charge of the new

company. To those who have not had an

account with us we wish to say that

throughout our history we have been

building up the largest lending agency

in the entire south. We are located in

thoroughly modern up-to-date banking

quarters under the supervision of the

state banking department. Loans are made

in amounts of \$25 up to \$500 with your

household goods as security. No endorser,

publicity or recording of your dealings. A big

concern with a big business built up by

the state banking department and

average ordinary citizens and rendering a

service which will be of great benefit to

all who avail themselves of it.
